

A stylized graphic of a house in the background. The house is composed of various geometric shapes in shades of yellow, orange, and light blue. The roof is a series of yellow and orange rectangles. The walls are light blue and yellow. The house has a chimney on the right side. The overall style is modern and colorful.

Our Ride-Along Program is for kids of all ages. Scottsdale Solid Waste Services will arrange to provide a ride-along for kids whose families have residential collection service, at the request of their parent or guardian. The ride-along begins at your home and generally last from 30 minutes to an hour, then your child is returned to your home (some restrictions apply). For more information contact us at 480-312-5600.
