

Financial Report Fiscal Year-to-Date As of October 2010

Report to the City Council and Budget Review Commission
Prepared by City Treasurer – Finance and Accounting Division
November 16, 2010

FINANCIAL REPORT FOR YEAR-TO-DATE OCTOBER 2010

The following is a financial summary of the City's YTD October 2010 General Fund, Transportation Fund and Fleet Fund. The focus of the report is on the General Fund, which is the primary operating fund of the City. The General Fund exists to account for the resources devoted to finance the services traditionally associated with local government. Included in these services are police and fire protection, parks and recreation, planning and economic development, general administration of the City, and any other activity for which a special fund has not been created.

The report includes a summary for revenues and expenditures by major categories. Significant budget to actual variances are highlighted. The report also includes Appendix 1 which details the City's Privilege (Sales) Tax by major category.

Note: Amounts are rounded in millions; therefore, differences may occur.

Sales Taxes

Scottsdale's total City sales tax rate is 1.65 percent. Of that amount, 0.55 percent is dedicated to the specific purposes related to transportation and preservation (which are accounted for in Special Revenue Funds) and 0.10 percent is dedicated to public safety (accounted for in the General Fund). The remaining 1.0 percent of the sales tax is also accounted for in the General Fund and is available to fund basic municipal services such as police, fire, libraries, and parks. This general-purpose sales tax is the City's single largest revenue source. Revenues from two of the sales taxes categories (utilities and construction) have seen dramatic decreases over the prior year and have not resumed to "normal" levels. Several automotive dealerships left the City to relocate elsewhere or have permanently closed. The sales tax category results can be found in Appendix 1.

Total General Fund Sales Taxes	\$32.4	\$26.9	\$25.5	\$26.8	(\$1.3)	-4%
% Change vs. Prior Year		-17%	-5%			

Actual to Revised Budget variance of (\$1.3) million or (4%): Sales tax revenues are down in the rental category driven by declining commercial rental rates even though the vacancy rates are somewhat steady. Additionally, automotive sales continue to be slow. The "Cash for Clunkers" program, offered in FY 2009/10, is no longer available and, therefore, creating a large decrease year over year. See Appendix 1 for further information about results by sales tax categories.

State-Shared Revenues

These revenues are derived from state shared sales taxes, income taxes (revenue sharing), and vehicle license taxes (auto lieu) based on a statutorily determined formula, primarily driven by population. On a per capita basis, sales taxes generated in Scottsdale tend to be higher than most other cities/towns due to higher wealth, consumer spending habits, and larger amounts of visitor/tourist spending. As directed by statute, the State distributes the shared portion of State sales taxes back to local governments based on population, not by the amount of sales taxes collected within the local jurisdiction.

% Change vs. Prior Year		-11%	-15%			

Actual to Revised Budget variance of (\$0.4) million or (2%): Similar to what we are seeing at the City, State sales taxes are also coming in below forecast due to a slower than anticipated economic recovery.

Charges for Services/Other

Charges for Services include numerous revenues such as building permits, recreation fees, fire department fees, WestWorld fees, interest income, and property rentals. Also included are cost allocations from the General Fund to the enterprise funds. Certain components of this revenue source are subject to dramatic peaks and valleys from year to year. For example, building permit fees are based on developers' interest in construction projects and ability to secure financing for the projects.

% Change vs. Prior Year		-9%	-9%			

Actual to Revised Budget variance of \$0.4 million or 3%: Building Permit Fees & Charges are \$0.1 million higher than forecast due to a larger number of small-valuation type projects than anticipated. The favorable variance for Property Rental of \$0.3 million is the result of unbudgeted receipts.

Property Taxes

In the General Fund, property taxes are comprised only of the "Primary" property taxes levied on the assessed value of all property within the City to help pay for basic operations of the City. Secondary property taxes are not included here as they must be used solely for payment of General Obligation bond debt service. Increases in revenue from year to year reflect new property additions to the tax roll and Council actions to increase total revenue consistent with state law.

Actual to Revised Budget variance of \$1.2 million or 57%: The favorable variance is primarily due to a timing difference related to when people pay their property tax bills. By fiscal year end, the variance should be closer to an unfavorable (\$0.2) million or (1%) variance related to a class action lawsuit against the County Assessor that has been in process since 1995, which settled in June 2010. The settlement was not known at the time of forecasting for the FY 2010/11 budget.

Franchise Fees and In-Lieu Taxes

This category represents revenues from utility and cable providers.

Total Franchise Fees/In-Lieu Taxes	\$6.0	\$6.2	\$5.1	\$5.4	(\$0.3)	-6%
% Change vs. Prior Year		3%	-18%			

Actual to Revised Budget variance of (\$0.3) million or (6%): The unfavorable variance of (\$0.2) million in Electric and Gas Franchise is driven by a budget assumption that franchise revenue would increase by 4.6 percent year over year. The Electric and Gas Franchise revenue actually has declined by 3 percent year-to-date versus prior year, possibly due to conservation of energy costs and milder summer weather. The Cable TV Franchise is down from prior years due to a change in accounting procedures related to cash versus accrual accounting but by fiscal year-end, any variance related to the accounting practice change will be minimized.

Note: The Enterprise Franchise Fees and the Enterprise In Lieu Property Tax were previously reported in this category. However, to stay consistent with the City's Comprehensive Annual Financial Report (CAFR) these two items are now reported in the Transfer In.

Bed Taxes

A bed tax is applied to lodging room charges for stays of 29 days or less (transient) in hotels or short-term rentals. Effective July 1, 2010, the bed tax rate was increased from 3 percent to 5 percent. (Beginning in FY 2009/10, 100 percent of the Bed Tax revenue was being recorded in the General Fund with a corresponding transfer of 80 percent to the Special Programs Fund.) Prior to the tax rate increase, 80 percent of the bed tax revenue was transferred to the Special Program Fund and was restricted for tourism development including the payment of contracts to increase tourism and fund debt service for destination attractions. The City started receiving the revenues from the new 5 percent tax rate in September 2010 and 50 percent of the 5 percent bed tax collections are transferred to the Special Programs Fund to be used for destination marketing purposes.

Actual to Revised Budget variance of \$0 million or 0%: No explanation necessary.

Personnel Services

Personnel Services include the salaries and wages (pay for time worked, vacation, and sick leave) plus the City's contribution for fringe benefits such as retirement, social security, health, and workers' compensation insurance. It is also inclusive of vacancy savings, the medical and vacation leave accrual payouts that are made at the time of separation from the City, and position reclassifications.

Actual to Revised Budget variance of \$1.9 million or 3%: The positive variance is primarily the result of anticipated Community and Economic Development, Community Service and Police overtime usage which did not occur. The budget spread was developed using last year's activity level as an indicator. It is unknown at this time if this positive variance will result in year-end savings or if the divisions will utilize this in future months. Additionally, the overtime variance creates a favorable variance in the Federal Insurance Contributions Act (FICA) and retirement accounts. The part-time wages budget in Community Services is also contributing to the favorable variance due to the ongoing efforts of re-evaluating work schedules and coverage.

Contractual Services

This category includes expenditures for services performed by firms, individuals, or other City departments.

Actual to Revised Budget variance of \$1.9 million or 11%: The favorable variance is primarily attributable to the citywide initiative of limiting expenses to FY 2009/10 actual. The favorable variance also relates to invoices for services being received later than expected for contracts such as architectural and engineering, fire services and the landscape contract. Additionally, the variance is a result of those expenditures that are difficult to budget for because of their unpredictable timing and nature of maintenance repairs and emergencies (e.g. repair, building maintenance services, painting, fire alarm maintenance, elevators, etc).

Commodities

This classification includes supplies, repair and replacement parts, small tools, and maintenance and repairs.

Actual to Revised Budget variance of \$0.5 million or 20%: The favorable variance is primarily attributable to divisions limiting expenses to FY 2009/10 actual. The favorable variance is also due to the timing of invoices and the budget spread for anticipated expenses. In addition, the variance is a result of various accounts, such as maintenance services and repair materials, and education and recreation supplies which are difficult to budget in the appropriate period as they do not have a predictable spending pattern.

Capital Outlays

Capital outlays include the purchase of land, the purchase or construction of buildings, structures, and facilities, plus machinery and equipment. It includes expenditures that result in the acquisition or addition of a fixed asset or increase the capacity, efficiency, span of life, or economy of operating an existing fixed asset. For an item to qualify as capital outlay the expenditure must meet all of the following requirements: (1) have an estimated useful life of more than two years; (2) have a unit cost of \$5,000 or more; and (3) be betterment or improvement.

Actual to Revised Budget variance of \$0.8 million or 100%: The favorable variance is the result of the planned capital operating projects that have not been implemented. Staff continues to work on developing project timelines. Once the timelines are finalized the budgets will be adjusted accordingly. In addition, due to budget constraints and the citywide initiative to limit expenses to FY 2009/10, a few operating projects are being re-evaluated to determine if they can be delayed.

Debt Service & Contracts Payable

This activity is debt payments related to Municipal Property Corporation (MPC) bonds that are to be repaid through excise taxes and contractual obligations related to development agreements (funded by sales tax rebates) which vary based on the actual sales tax collections.

Actual to Revised Budget variance of (\$0.3) million or (30%): The transfers out reflects transfers to the Special Programs Fund for bed tax revenues (50 percent of the 5 percent total Transient Occupancy Tax collections per adopted financial policy). The 30 percent unfavorable variance is primarily the result of the City Council authorized Bed Tax transfer to the Capital Improvement Program for the new WestWorld Americans with Disabilities Act (ADA) parking lot capital project.

The Transportation Fund receives and expends the City's allocation of the Arizona Highway User Revenue Tax (HURF) as well as other transportation related revenues. The amount of HURF available to each City is allocated based on population. These monies must be used for street construction, reconstruction, maintenance, or transit. The State of Arizona requires the City to establish and maintain an accounting for Highway User Revenue Funds. The fund also accounts for the 1989 voter approved Transportation Privilege (Sales) Tax of 0.20 percent which is dedicated to funding transportation improvements and operations. Fifty percent of the Transportation Sales Tax is transferred to the Capital Improvement Fund for transportation related capital improvement projects.

Actual to Revised Budget variance of (\$0.4) million or (3%): HURF taxes are lower than budget due to less demand of fuel due to economic conditions and a timing issue related to commercial motor carrier registration fees. The .20 percent City Sales Tax revenues are down in the rental category driven by declining commercial rental rates even though the vacancy rates are somewhat steady. Additionally, automotive sales continue to be slow. The "Cash for Clunkers" program, offered in FY 2009/10, is no longer available and therefore creating a large decrease year over year. See Appendix 1 for further information about results by sales tax categories.

Total Uses	\$5.8	\$6.4	\$9.4	\$3.0	32 %

Actual to Revised Budget variance of \$3.0 million or 32%: The favorable variance in Contractual Services is primarily attributable to the invoice timing for Transportation's transit contracts with the Trolley and Regional Public Transportation Authority (RPTA). The invoices are yet to be received due to contracts that were modified by City Council in July. The recalculated contract amounts were presented and approved by City Council in October, as such, invoices are anticipated to be received in November. In addition, the favorable variance in Contractual Services is a result of American Recovery and Reinvestment Act (ARRA) paving projects expenditures being applied to Capital Outlays and not in the Contractual Services accounts where the funding for those projects is budgeted. This recording of ARRA expenditures is then creating an unfavorable variance in Capital Outlays.

The Fleet Management Fund is classified as an Internal Service Fund. This fund is structured to recover Fleet costs through annual user fees that are charged to each Division's cost center(s) that are assigned City vehicles and other related equipment that may incur fleet related expenditures. The annual internal user fees consist of two categories:

1) maintenance and operation (M & O) rates, established to recover the estimated costs of fuel, parts, and labor for vehicles and related equipment, and, 2) replacement vehicle rental rates, similar to car payments, except Fleet uses the accumulated payments to purchase a replacement vehicle or related equipment at the end of the current vehicle's useful life.

Actual to Revised Budget variance of \$2.6 million or 47%: A significant portion of the favorable variance is a result of the budget not being spread appropriately. A budget adjustment will be processed and reflected in the November Monthly Financial Report. Additionally, the Capital Outlays favorable variance is attributable to the difficulty of forecasting the timing of vehicle acquisitions.

Privilege (Sales) & Use Tax Collections For October 2010

(For Business Activity in September 2010)

Appendix 1 contains information regarding the “actual” revenue collections from the 1.0 percent Privilege and Use Tax reflected in the General Fund, 0.2 percent dedicated Transportation Privilege Tax, 0.2 percent dedicated Preserve Privilege and Use Taxes, 0.15 percent additional dedicated Preserve Privilege and Use Taxes, and 0.1 percent dedicated Public Safety Privilege and Use Taxes, including adjustments for related license revenues, late collections and audits. While the report includes the actual year-to-date tax collections for the funds previously noted, only the General Fund portion (1.0 percent) of the tax is unrestricted and available for general government purposes.

The report shows a fiscal year Privilege and Use Tax collection decrease of 5 percent compared to Budget, and a decrease of 5 percent compared to the same period a year ago.

Rental Sales Taxes

The rental category includes rentals of commercial and residential real property and personal property rentals, (such as rentals of formal wear, DVD's, home health equipment, recreational goods, electronics, appliances, etc.)

Actual to Budget variance of (\$0.3 Million) or (7%): The unfavorable variance is a result of commercial building rental rates continuing to be lower than a year ago and the vacancy rate remaining relatively steady.

Miscellaneous Retail Stores Sales Taxes

This category includes small clothing stores, art galleries, luggage stores, home furnishing stores, jewelry stores, drug stores, hobby stores, household appliance stores, sporting goods stores, florists, computer stores, hardware stores, and pet supply stores.

Actual to Budget variance of \$0.1 Million or 3%: Retail sales have been increasing for electronics. Additionally, retail sales have been increased by stores that have not been open a full year yet.

Major Department Stores Sales Taxes

This category includes large department stores, warehouse clubs, supercenters, and discount department stores.

Actual to Budget variance of (\$0.1 Million) or (4%): This decrease is due in part to continued discounted prices by retailers and slower spending than expected.

Automotive Sales Taxes

The automotive category includes automobile dealers, motorcycle dealers, automotive repair shops, tire shops, car washes, and car leasing companies.

Actual to Budget variance of (\$0.2 Million) or (7%): The unfavorable variance is a result of automotive sales slowing down compared to recent months.

Food Stores Sales Taxes

This category includes grocery stores, candy stores, meat markets and convenience stores.

Actual to Budget variance of (\$0.1 Million) or (5%): The unfavorable variance is a result of a grocery store chain reporting a drop in sales compared to a year ago.

Construction Sales Taxes

The construction tax is collected on all construction activity; commercial and residential; new and re-model. It also includes landscaping, painting, flooring installation, siding, roofing, concrete, plumbing, heating, electrical, framing, drywall, infrastructure, masonry, finish carpentry, etc.

Actual to Budget variance of (\$0.3 Million) or (11%): The unfavorable variance is mostly a result of a decrease in commercial building projects.

Dining/Entertainment Sales Taxes

The restaurant category includes restaurants, bars, cafeterias, mobile food vendors, and caterers.

Actual to Budget variance of \$0.1 Million or 5%: The favorable variance is a result of late payments and an increase in sales.

Other Taxable Activity Sales Taxes

This category includes movie theatres, golf courses, gyms, bowling centers, amusement arcades, interior designers, publishers, banks, doctors, lawyers, accountants, beauty salons, barber shops, personal goods repair shops, photographers, advertising, wholesalers, and manufacturers.

Actual to Budget variance of (\$0.1 Million) or (7%): This appears to be due to decreases in sales from commercial printing, publishing and advertising.

Hotel/Motel Sales Taxes

This category includes lodging space rental on a short-term basis and other activities provided at the hotel/motel.

Actual to Budget variance of \$0 Million or 0%: No explanation necessary.

Utilities Sales Taxes

This category includes businesses that provide telecommunication (landlines and cellular), electricity, gas, or water services.

Actual to Budget variance of \$0 Million or 0%: No explanation necessary.

License Fees, Penalty & Interest

This category consists of application and license fees for Transaction Privilege (sales) tax licenses, interest, and penalties.

Actual to Budget variance of (\$0.2 Million) or (40%): The decrease is due to less penalty and interest being paid this year than the year prior.
