

Deferred Submittal Form On-Site Renewable Energy System

rev. 10/11/24

This does NOT permit the violation of any section of the International Energy Conservation Code (IECC) and International Green Construction Code (IgCC), or any federal, state or local regulations.

Plan Review No.: _____ Permit No.: _____

Project Name: _____ Date: _____

Address: _____ Plan Check No.: _____

OWNER'S NOTIFICATION OF DEFERRED SUBMITTAL FOR RENEWABLE ENERGY SYSTEM

To be completed and signed by **Owner** before a building permit is issued.

I hereby acknowledge that the deferred submittal for on-site solar energy system shall be submitted to the city for review and approval in accordance with IgCC Section 701.3 (see below). I do hereby certify that I have retained the following registered design professional or solar design/build contractor to be responsible for submitting the deferred solar energy submittal to the city for review and approval prior to final building inspection of work covered by this plan review and permit.

Registered Design Professional or Solar Design/Build Contractor: _____

(Registered design professional or solar contractor name)

Date: _____

Owner/Agent Signature _____

Date: _____

(Agent - Include title, relationship to project and provide letter signed by owner authorizing you as agent)

ON-SITE RENEWABLE ENERGY (as amended by IgCC 701.3)

Section 701.3 On-site renewable energy systems. Building projects shall contain on-site photovoltaic systems with a total DC rated capacity in accordance with one of the following:

1. Not less than 3 percent of the annual estimated energy used within the building for building mechanical, service water-heating and lighting.
2. Not less than 2 watts per sq. ft. multiplied by the horizontal projection of the gross roof area over conditioned spaces.

Exceptions to 701.3:

1. A building with gross conditioned floor area less than 5,000 square feet.
2. On-site renewable energy systems, other than photovoltaic systems, that result in an equal or greater annual energy production.
3. All or part of the required renewable energy generation is permitted to be replaced by equivalent annual energy savings, as calculated using the total building performance compliance path in Section C407 of the IECC.

CERTIFICATE OF COMPLETION FOR ON-SITE RENEWABLE ENERGY SYSTEM

To be signed by registered design professional or solar design/build contractor before a certificate of completion is issued.

I certify that, to the best of my knowledge, the requirements of the amended IgCC Section 701.3 and approved plans/specifications have been complied with, insofar as the portion of work requiring commissioning, except for previously reported deviations. A guarantee that the building is in full accordance is neither intended nor implied.

Print Name: _____ **Company Name:** _____

Signature of Registered Design Professional or Solar Design/Build Contractor _____

Date _____

Copy to be retained in plan review and permit records after the Certificate of Responsibility box (above) is signed.

Copy to be retained by registered design professional or solar design/build contractor until completion of project and Certificate of Compliance box (above) is signed; then submitted to the city prior to final building inspection.
