Transmittal Letter

For the Fiscal Year
Ended June 30, 2008

City of Scottsdale
Scottsdale, Arizona

September 12, 2008

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Scottsdale, Arizona:

The Comprehensive Annual Financial Report of the City of Scottsdale, Arizona, (the City) for the fiscal year ended June 30, 2008, is submitted in accordance with Article 6, Section 14, of the City Charter. Management assumes full responsibility for the completeness and reliability of all information presented in this report, based upon a comprehensive framework of internal control that it established for this purpose. Because the cost of internal controls should not outweigh their anticipated benefits, the objective is to provide reasonable rather than absolute assurance that the financial statements are free of any material misstatements.

Cronstrom, Osuch & Company, PC, have issued an unqualified (“clean”) opinion on the City of Scottsdale, Arizona’s financial statements for the year ended June 30, 2008. The independent auditor’s report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

City of Scottsdale Profile

Scottsdale is centrally located in Maricopa County, Arizona, with its boundaries encompassing an area approximately 184.2 square miles, stretching 31 miles from north to south. The City is bordered to the west by Phoenix, the state capital, by Tempe to the south, and by the Salt River/Pima Maricopa Indian Community to the east. Scottsdale, together with its neighboring cities, forms the greater metropolitan Phoenix area, which is the economic, political, and population center of the state.

Scottsdale was founded in the 1800’s when retired Army Chaplain Major Winfield Scott homesteaded what is now the center of the City. The City incorporated in 1951 and the City Charter, under which it is presently governed, was adopted in 1961. The City has experienced significant increases in population, with the 1950 census reporting 2,032 residents, and the 2000 census reporting 202,705. The City’s population for 2008 was estimated at 240,126.

Scottsdale operates under a council-manager form of government as provided by its Charter. The Mayor and six City Council members are elected at large on a non-partisan ballot for a four-year term. The City Council appoints the City Manager, who has full responsibility for carrying out City Council policies and administering City operations. The City Manager, in turn, appoints City employees and department General Managers under service procedures specified by Charter. City service departments provide a full range of services including police and fire protection, sanitation/solid waste service, water and sewer services, construction and maintenance of streets, recreational activities, including libraries and cultural events.

The annual budget serves as the foundation for Scottsdale's financial planning and control. The City Council formally adopts the budget and legally allocates, or appropriates, available monies for the City's various funds. Therefore, these funds have appropriated budgets, and budget to actual information is presented. On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them. A minimum of two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments. In June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for expenditures directly necessitated by a natural or man-made disaster as prescribed in the State Constitution, Article 9, Section 20. During fiscal year (FY) 2007/08, there were no such supplemental budgetary appropriations to the original budget.

The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year. Upon the recommendation of the City Manager, and with the approval of the City Council: (1) transfers may be made from the appropriations for contingencies to departments; and (2) unexpended appropriations may be transferred from one department to another.

Local Economy

The City of Scottsdale's tax revenue base consists of a variety of tax categories, the most significant being revenue collections from retail sales and tourism activity. The City also benefits from other favorable conditions associated with Scottsdale, including a stable, diversified economic base and a desirable location for work, destination, and living. Low commercial vacancy rates and the attractive developments within Scottsdale continue to bring high-end residential growth and commercial development. Scottsdale is past its historic period of peak expansion and the long-term economic outlook for the City must recognize this fact. Revitalization efforts have resulted in a rebirth of the City's downtown area, as well as renewed interest in redevelopment of the more mature, southern parts of the City. Commercial successes are due, in part, to Scottsdale's commitment to targeted recruitment efforts that focus on industry segments that complement the existing business mix, including: corporate headquarter and regional offices; high-tech, research and development; bio-med; high-end resorts and hotels, and business and professional services. The following categories represent key factors affecting Scottsdale's economic and financial success:

Retail Sales

Scottsdale's largest revenue source is sales tax generated from a well-balanced variety of business categories including automotive, construction, food stores, hotels/motels, department stores, retail stores, restaurants, utilities and rentals. The City saw retail sales tax revenues decrease by 4.0 percent after three consecutive years of growth; indication that the local economy is experiencing a downturn similar to the national level economy.

Employment and Job Growth

Scottsdale remains a net importer of labor, with an estimated ratio of 1.2 jobs to workforce population in the City (Source: SitesUSA 2007). This creates employment opportunities for Scottsdale residents and creates a significant business component to the local tax base. Scottsdale's unemployment rate was significantly lower than state and metropolitan levels and was approximately 3.1 percent as of June 2008. Scottsdale recruited 5 new, targeted firms with about 1,400 new jobs over the past year, with average annual salaries of approximately \$72,000. The City benefited from population growth as well as higher income levels due to the addition of higher wage jobs. Major new employers to announce moves to Scottsdale last year included Locallife, Hypercom, and Ticketmaster, as well as the construction of new corporate headquarters for Dial Corp. within the City of Scottsdale.

Commercial Vacancy Rates

Scottsdale's citywide office vacancy rate was about 19 percent for the last quarter of the fiscal year. The percentage is in line with the Valley average. Scottsdale has nearly 14 percent of new office space in the Valley that is currently under construction.

Tourism

Tourism is one of Scottsdale's largest and most vibrant industries, and is a significant contributor to the City's economy. A variety of lodging properties, including several world-class resorts and "boutique" hotels, provide nearly 10,000 guest rooms, along with spectacular spas, trend-setting dining and one-of-a-kind Sonoran desert golf courses. With the addition of the new 225-room W Hotel in 2008, room supply in Scottsdale is expected to remain relatively stable in 2009. Bed tax revenues to the City remained steady for fiscal year 2007/08. Scottsdale visitors contribute slightly over 20 percent of the privilege tax revenue in the majority of categories. With over 17,000 retail shops, nearly 600 restaurants, national and international events, and spectacular southwest Sonoran desert setting, Scottsdale continues to be a popular destination for visitors year-round.

After four straight years of growth, fiscal year 2007/08 hotel/motel transient occupancy tax receipts were essentially flat as compared to FY2006/07 receipts. While the average rate remained consistently high, occupancy levels, with the exception of the Super Bowl in February 2008, steadily declined. The current assessment for tourism in FY2008/09 is that weakening demand from fewer group meetings and leisure visitors will continue primarily due to the uncertainties in the national financial and housing markets, increases in energy costs and overall decreases in consumer confidence. A significant decline in occupancy typically results in downward pressure on the rates, potentially further impacting bed transient occupancy tax receipts.

Long-term Financial Planning

Scottsdale's Strategic Financial Plan is balanced upon sound financial reserves and conservative revenue growth forecasts for the foreseeable future. Potential for State legislative impacts to revenue-sharing or local revenues and additional demands for essential City services such as police, fire, transportation and social services remain. Financial Services management plays a pivotal role in maintaining and recommending enhancements to financial plan elements to ensure the continued financial stability for the City of Scottsdale. Achieving and maintaining fiscal stability requires many elements all working in concert with one another. The following identifies the financial plan elements that Scottsdale uses to chart a course for the future.

Adopted Comprehensive Financial Policies

Financial policies establish the framework for Scottsdale's overall fiscal planning and management. They set forth guidelines against which current budgetary performance can be measured and proposals for future programs can be evaluated. These policies set the tone for all fiscal decisions made by staff and City Council. We currently identify 51 financial policies governing operations, capital planning, debt management, reserves and contingencies and financial reporting – regular review and enhancement of these policies is done in conjunction with financial plan development and are adopted annually by the City Council.

Financial Resource Planning

Scottsdale's strategic financial planning begins with determining the City's fiscal capacity based upon long-term financial forecasts of recurring available revenues. Conservative financial forecasts coupled with financial trend analysis techniques and careful reserve analysis help preserve the fiscal wellbeing of Scottsdale. Strategic financial capacity planning is a critical element to reach long-term financial stability goals and to determine special financial needs for critical objectives of the City Council.

Multi-Year Operating Budget Planning

Multi-year budget planning encompasses long-range operating expenditure plans (including the operating impacts of planned capital projects), which are linked to community expectations and broad goals of the City Council. The multi-year approach provides a better opportunity for staff to change its financial paradigm from what do we need this year to how do we accomplish our level of service objectives over time, given our financial capacity. While the City is required to adopt an annual budget to meet State statutory requirements, Scottsdale builds a five-year financial plan to help anticipate future impacts and ensure achievement of City objectives.

Strategic Capital Improvement Project Planning

Scottsdale Capital Improvement Projects are planned for five or more years and analyzed using City specific prioritization criteria. The operating cost impacts of projects are also planned and considered in developing future operating budget plans. Projects with significant operating impacts are carefully timed to avoid contingent liabilities, which future operating resources cannot meet. Pay-as-you-go funding sources are also conservatively estimated to avoid over-committing to capital construction using revenues that are not certain. To the extent debt financing is used and/or required capital project plans are sized to conform to existing debt management policies.

Debt Management

Scottsdale has a financial policy, which prohibits the issuance of debt for operating expenses. With that as a governing framework, all debt issuances are for the purposes of financing capital infrastructure (or long-lived costly assets). Each debt issuance is evaluated against multiple additional policies addressing: debt service as a percent of operating expenditures, tax and revenue bases for the repayment of debt, the overall debt burden on the community, statutory limitations and market factors affecting tax-exempt interest costs. In all cases a long-term analysis is made considering the financial (debt) capacity that fits the wherewithal (and willingness) of our community to pay for the capital projects. Sizing of the City's Capital Improvement Plan based on debt capacity in conjunction with conservatively estimated pay-as-you-go revenues helps stabilize per capita debt and lower annual debt service costs to the City over the long-term.

Major Initiatives

The City of Scottsdale's adopted fiscal year 2008/09 budget reflects a downturn in the local economy, which is also mirrored at the national and state levels. In spite of the challenging current economic conditions, the City was able to adopt a budget that did not require any service level reductions. This was accomplished by adhering to our adopted comprehensive financial policies, a thorough reassessment of the base budget requests, and a thorough evaluation of all proposed additions to the budget.

Major base budget items included increasing the vacancy savings estimate and adjusting non-personal service budgets to reflect historical spending levels. Combined these strategies yielded an estimated \$4.6 million in citywide costs reductions.

To maintain existing service levels, the City included cost increases for health care, retirement, jail services, fire dispatch, public transit, fuel and filter replacements for the water treatment plant. Additionally, cost increases for new/expanded services included expanded trolley services, the financing costs for the new public safety radio system, and state mandated dust control.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Scottsdale for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2007. This was the 35th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City of Scottsdale received the Distinguished Budget Presentation Award for the fiscal year beginning July 1, 2007 from the GFOA for our conformity in budget presentation. We believe that our current budget continues to conform to the program requirements and expect to receive this award for the fiscal year beginning July 1, 2008. In addition, credit ratings of “AAA”, “Aaa”, and “AAA” from the three major credit rating agencies, Fitch Ratings, Moody’s Investors Service, and Standard and Poor’s Ratings Services, respectively, were re-affirmed in Spring 2008 on the City’s outstanding general obligation bonds. These are the highest ratings possible and this distinction, originally earned by the City in 2001, is held by only a handful of local governments across the nation.

Each year the Government Finance Officers Association (GFOA) accepts applications in nine financial categories for its distinguished Awards for Excellence Program. The Award for Excellence stresses practical, documented work that offers leadership to the profession and promotes improved public finance. From all applications submitted throughout the country, the GFOA awarded seven winners in 2008 including Scottsdale Financial Services Department which received the GFOA’s Award for Excellence for Scottsdale Debt Management Guide and Model. The Debt Management Guide outlines our policies and guidance regarding capital planning and financing. The Planning Model is a dynamic tool that uses the leverage of “what if” scenarios for decision making and allows the City to interpret key trends and strategically plan for the city’s long-term debt.

The preparation of this report could not have been accomplished without the dedicated service of the entire staff of the Accounting and Budget divisions, the assistance of administrative personnel in the various departments, and through the competent service of our independent auditors. I also wish to express my sincere appreciation to the City Council, the City Manager, and the Assistant City Managers for their interest and support in planning and conducting the financial affairs of the City of Scottsdale in a responsible and progressive manner.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Craig Clifford". The signature is fluid and cursive, with a large initial "C" and "C".

Craig Clifford, CPA, CGFM

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and the City Council of the
City of Scottsdale, Arizona

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Scottsdale, Arizona (City), as of and for the year ended June 30, 2008, which collectively comprise the City's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the City's nonmajor governmental, internal service, and fiduciary funds presented as supplementary information in the accompanying combining and individual fund financial statements and schedules as of and for the year ended June 30, 2008, as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Scottsdale, Arizona, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of each nonmajor governmental, internal service, and fiduciary fund of the City of Scottsdale, Arizona, as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 13 through 31, the Public Safety Personnel Retirement System Schedule of Funding Progress on page 98 and the Other Post-Employment Benefit Plan Schedule of Funding Progress on page 102 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements and on the combining and individual fund financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The accompanying introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 12, 2008 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Cronstrom, Osuch & Company, P.C.

September 12, 2008

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the City of Scottsdale, Arizona's (the City) Comprehensive Annual Financial Report presents a narrative overview and comparative analysis of the financial activities of the City for the fiscal years ended June 30, 2008 and 2007. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal and the basic financial statements.

FINANCIAL HIGHLIGHTS

Key Financial highlights for fiscal year 2008 are as follows:

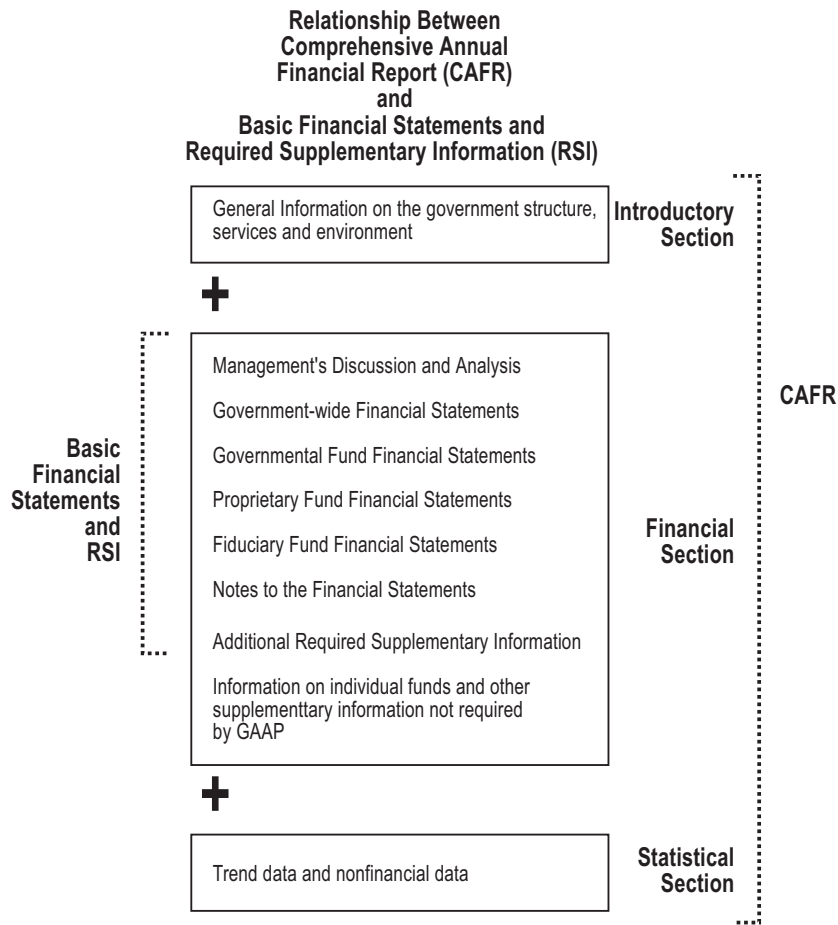

- The assets of the City exceeded its liabilities at the close of the fiscal years 2008 and 2007 by \$3.9 billion and \$3.7 billion (net assets), respectively. Of these amounts, \$383.7 million and \$431.0 million (unrestricted net assets), respectively, may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's total net assets increased by \$195.5 million and \$289.6 million during fiscal years 2008 and 2007, respectively.
- As of June 30, 2008 and 2007, the City's governmental funds reported combined ending fund balances of \$335.8 million and \$343.5 million, respectively. Approximately 92.1 percent of the fund balance at June 30, 2008, \$309.2 million, is unreserved fund balance available for spending at the government's discretion, compared to \$321.5 million at June 30, 2007.
- At the close of the current fiscal year, unreserved fund balance for the General Fund was \$61.3 million or 24.2 percent of total General Fund expenditures of \$253.9 million. At the close of fiscal year 2007, unreserved fund balance for the General Fund was \$89.5 million or 39.2 percent of total General Fund expenditures of \$228.6 million.
- During fiscal years 2008 and 2007, the City's total bonded debt increased by approximately \$199.7 million and \$2.5 million, respectively. The City issued \$120.0 million of new General Obligation bonds (Governmental activities) in fiscal year 2008. The new bond costs were partially offset by reduction of bond payable balances due to principal payments made in fiscal year 2008.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components:

- (1) **Government-wide** financial statements,
- (2) **Fund** financial statements, and
- (3) **Notes** to the financial statements.

This report also contains other **supplementary information** in addition to the basic financial statements themselves.

Government-wide Financial Statements

The **government-wide** financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The **statement of net assets** and the **statement of activities** provide information about the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Major fund financial statements provide the next level of detail. For governmental funds, these statements reflect how services were financed in the short term as well as what dollars remain for future spending. The fund financial statement also displays the City's most significant funds with all other major funds presented in total in one column.

The **statement of net assets** presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether or not the financial position of the City is improving or deteriorating.

The **statement of activities** presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, police, financial services, transportation, community services, including parks, recreation and library services, information systems, planning and development, fire, municipal services, citizen and neighborhood resources, human services and economic vitality. The business-type activities of the City include water, sewer, solid waste, and airport operations.

The government-wide financial statements are for the City itself. However, included within the governmental activities of the government-wide financial statements are the operations of the City of Scottsdale Municipal Property Corporation (MPC), the Scottsdale Preserve Authority (SPA), and the Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, Via Linda Road, and Waterfront Commercial Community Facilities Districts. Although legally separate from the City, these component units are blended with the primary government because of their governance or financial relationships to the City.

Separate financial statements of the MPC, SPA and the Scottsdale Mountain, McDowell Mountain Ranch, DC Ranch, Via Linda Road and Waterfront Commercial Community Facilities Districts may be obtained at the City's Financial Services Department, Accounting Division, 7447 East Indian School Road, Suite 210, Scottsdale, Arizona 85251.

The government-wide financial statements can be found on pages 34 and 35 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into the following three categories: **Governmental Funds**, **Proprietary Funds**, and **Fiduciary Funds**.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in determining what financial resources are available in the near future to finance the City's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains several individual governmental funds organized according to their type (special revenue, debt service, and capital projects). Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in funds balances for the General Fund, General Obligation Bond Debt Service Fund, and General Capital Improvement Plan (CIP) Capital Projects Fund which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the non major governmental funds is provided in the form of combining statements in a separate section of this report.

The basic governmental fund financial statements begin on page 36 of this report.

Proprietary Funds

Proprietary Funds are generally used to account for services for which the City charges customers—either outside customers, internal units or departments of the City. Proprietary Funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The City maintains the following two types of Proprietary Funds:

Enterprise Funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses Enterprise Funds to account for the operations of the Water, Sewer, Solid Waste and Airport operations of the City. All Enterprise Funds are considered to be major funds of the City.

Internal Service Funds are used to report activities that provide supplies and services for certain City programs and activities. The City uses Internal Service Funds to account for its fleet of vehicles and self-insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. The Internal Service Funds are combined into a single, aggregated presentation in the Proprietary funds financial statements. Individual fund data for the Internal Service Funds is provided in the form of combining statements in a separate section of this report.

The basic proprietary funds financial statements begin on page 44 of this report.

Fiduciary Funds

Fiduciary Funds are used to account for resources held for the benefit of parties outside the City. The City has one private-purpose trust fund and two agency funds, which are reported as fiduciary funds. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements begin on page 49 of this report.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found beginning on page 51 of this report.

Combining Statements

The combining statements referred to earlier in connection with non-major governmental funds, internal service funds, and fiduciary funds are presented immediately following the notes to the financial statements.

Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the City's progress in funding its obligation to provide pensions benefits to its employees. This information can be found on page 98 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

While this document contains information about the funds used by the City to provide services to our citizens, the Statement of Net Assets and the Statement of Activities serve to provide an answer to the question of how the City, as a whole, did financially throughout the year. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by the private sector. The basis for this accounting takes into account all of the current year's revenues and expenses regardless of when the cash is received or paid.

These two statements report the City's net assets and the changes in those assets. The change in assets is important because it tells the reader whether the financial position of the City as a whole has improved or diminished. However, in evaluating the overall position of the City, non-financial information such as changes in the City's tax base and the condition of the City's capital assets will also need to be evaluated.

Analysis of Net Assets

As noted earlier, net assets may serve as a useful indicator of a government's financial position. For the City, assets exceeded liabilities by \$3.9 billion and \$3.7 billion at the close of the fiscal years 2008 and 2007, respectively.

Net Assets

For the Years Ended June 30, 2008 and 2007 (in thousands of dollars)

	Governmental		Business-Type		Total	
	Activities		Activities			
	2008	2007	2008	2007	2008	2007
Assets						
Current and Other Assets	\$ 506,927	\$ 510,038	\$ 357,230	\$ 294,955	\$ 864,157	\$ 804,993
Capital Assets	3,128,903	2,918,477	1,235,209	1,119,910	4,364,112	4,038,387
Total Assets	3,635,830	3,428,515	1,592,439	1,414,865	5,228,269	4,843,380
Liabilities						
Long-term Liabilities Outstanding	858,392	762,601	323,853	223,823	1,182,245	986,424
Other Liabilities	143,693	152,712	39,717	37,150	183,410	189,862
Total Liabilities	1,002,085	915,313	363,570	260,973	1,365,655	1,176,286
Net Assets						
Invested in Capital Assets, Net of Related Debt	2,353,573	2,198,130	909,632	895,636	3,263,205	3,093,766
Restricted	189,540	108,686	26,147	33,649	215,687	142,335
Unrestricted	90,632	206,386	293,090	224,607	383,722	430,993
Total Net Assets	\$ 2,633,745	\$ 2,513,202	\$ 1,228,869	\$ 1,153,892	\$ 3,862,614	\$ 3,667,094

The largest portion of the City's net assets reflects its investment in capital assets (e.g. land, buildings, and equipment) less any related outstanding debt used to acquire those assets, of \$3.3 billion (84.5 percent) and \$3.1 billion (84.4 percent), for the fiscal years 2008 and 2007, respectively. Although the City's investment in its capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources because the City uses these assets to provide services to citizens and; therefore, cannot liquidate them.

An additional portion of the City's net assets, \$215.7 million (5.6 percent) for fiscal year 2008 and \$142.3 million (3.9 percent) for fiscal year 2007 represent resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets for fiscal years 2008 and 2007, \$383.7 million (9.9 percent) and \$431.0 million (11.8 percent), respectively, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of both the current and previous fiscal years, the City was able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for the business-type activities.

Analysis of Changes in Net Assets

The City's total net assets increased by \$195.5 million and \$289.6 million during the fiscal years 2008 and 2007, respectively. These increases are explained in the government and business-type activities discussion herein, and are primarily a result of contributions from developers of infrastructure assets.

Changes in Net Assets

For the Years Ended June 30, 2008 and 2007 (in thousands of dollars)

	Governmental Activities		Business-Type Activities		Total

Net Assets at End of Year	\$ 2,633,745	\$ 2,513,202	\$ 1,228,869	\$ 1,153,892	\$ 3,862,614	\$ 3,667,094

Governmental activities

Governmental activities increased the City's net assets by \$120.5 million in fiscal year 2008 and \$209.0 million in fiscal year 2007, thereby accounting for 61.7 percent and 72.2 percent, respectively, of the total growth in the net assets of the City. The key factor of the increase is as follows:

Intergovernmental taxes posted a year-over-year growth in the 2008 fiscal year resulting in an increase of 8.9 percent, primarily due to an increase in state revenue sharing. Also, property taxes increased in the 2008 fiscal year 6.2 percent over previous year due to increases in assessed valuation.

**Program Revenues and Expenses for Governmental Activities
Fiscal Year 2007-08
(in thousands)**

As shown in the “Program Revenues and Expenses for Governmental Activities” chart, police is the largest function in expense (19.5 percent), followed by transportation (19.3 percent), and community services (16.8 percent).

The Transportation department ensures that Scottsdale neighborhoods, businesses and visitors are provided an accessible, environmentally sensitive, safe and efficient transportation system. Projects and operations for street, transit and non-motorized travel are developed in cooperation with the public and promote economic sustainability for the community, preserves and enhances neighborhood quality of life and ensures seamless connections to the regional network.

The Scottsdale Police Department, in partnership with the citizens of Scottsdale, recognizes the changing needs of our community and law enforcement’s role in addressing those needs. Furthermore, they pledge excellence, initiative and integrity to enhance the quality of life throughout our City knowing those they serve deserve no less.

The City’s Community Services Department improves and preserves Scottsdale’s quality of life through development of safe and highly maintained facilities and imaginative services that provide opportunities for family interaction, cultural enrichment, and development of lifetime skills which build self-esteem, promote healthy lifestyles and are a catalyst for community involvement. They provide assistance and guidance to those in need and link our citizens with information and resources throughout the world.

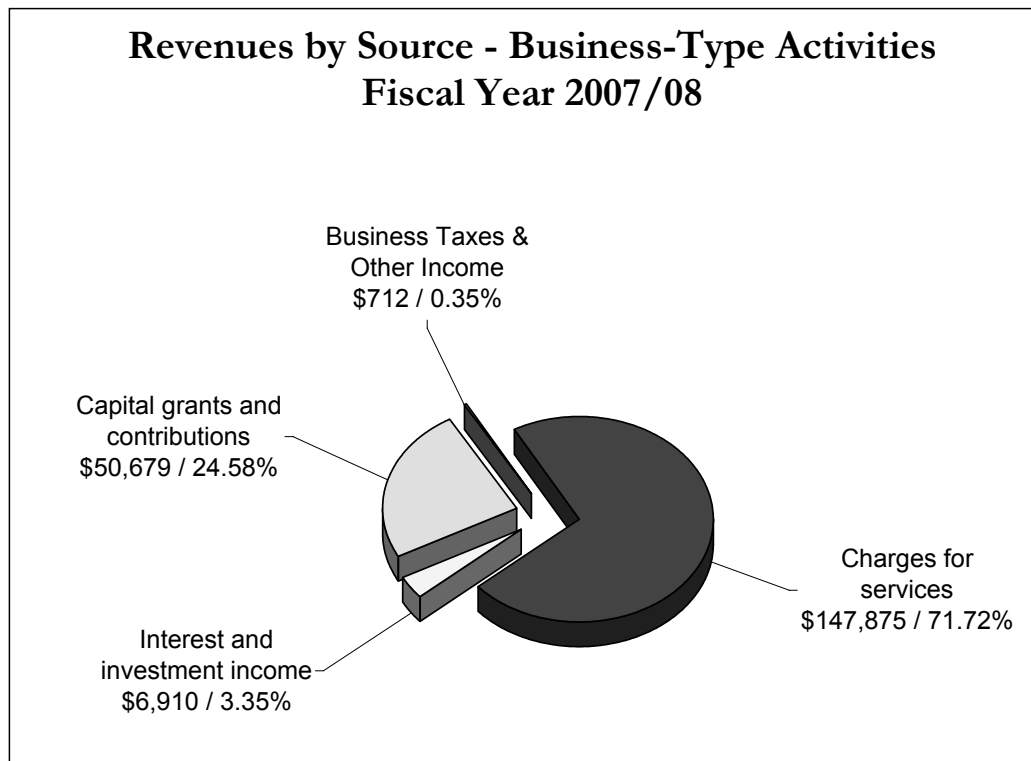

General revenues such as property, business, and privilege taxes are not shown by program, but are effectively used to support program activities citywide. For governmental activities overall, without regard to program, business taxes which includes Sales and Use Taxes and Franchise Taxes, are the largest single source of funds (33.33 percent), followed by capital grants and contributions (27.37 percent), intergovernmental taxes (11.43 percent), property taxes (9.39 percent) and charges for services (8.91 percent).

Business-Type activities

Business-type activities increased the City's net assets in fiscal years 2008 and 2007 by \$75.0 million and \$80.6 million, respectively, accounting for 38.3 percent and 27.8 percent, respectively, of the total growth in the City's net assets. The key factor of this increase is as follows:

The Water and Sewer Utility Fund had capital contributions from developers and grantors resulting in \$50.7 million and \$55.1 million in revenue for fiscal years 2008 and 2007, respectively. The majority of this amount is from infrastructure donated from developers and development fees received as development continues throughout the City.

As shown in “Program Revenues and Expenses - Business Type Activities” and the “Revenues by Source - Business Type Activities” charts, the largest of Scottsdale’s business-type activities, Water and Sewer utilities, each had expenses of \$71.1 million and \$26.9 million, respectively, in fiscal year 2008, followed by Solid Waste with operating expenses of \$18.8 million. For the fiscal year 2008, revenues exceeded expenses in all four areas of business activity. Revenues exceed expenditures due to multi-year financial planning and pay-as-you-go contributions to capital projects. Charges for services provided the largest share of revenues (71.7 percent) followed by capital grants and contributions (24.6 percent), which are largely developer contributions and development fees, for all of the business-type activities.

The City's Water Resources Department plans, manages and operates a safe, reliable water supply and wastewater reclamation system and provides efficient, high quality customer service to Scottsdale citizens.

The Solid Waste Department provides effective and responsive leadership that ensures the delivery of safe, efficient and environmentally sound solid waste services to approximately 78,020 residential customers and 1,600 commercial and roll-off customers.

The Aviation Airport is a general aviation reliever facility with no commercial commuter or airline service and is home to many of the Valley's corporate aircraft. Approximately 10,000 passengers a year travel through Scottsdale Airport to see the numerous sights across the State of Arizona.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

Funds are created and segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. An activity not required to be reported in a separate fund is included in the General Fund. Governmental funds are used to account for tax-supported activities.

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of resources that are available for spending. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. These funds are accounted for by using the modified accrual basis of accounting. Types of governmental funds reported by the City include the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Project Funds.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$335.8 million, a decrease of \$7.7 million in comparison to the combined ending fund balances for fiscal year 2007 of \$343.5 million. Approximately \$309.2 million of the total for fiscal year 2008 and \$321.5 million of the total for fiscal year 2007 constitutes unreserved fund balance. Portions of this unreserved balance are designated in the City's budget plan for in pay-as-you-go capital projects and operational contingency funding. The remainder of fund balance is reserved to indicate that it is not available for new spending because it has already been committed, (1) to pay debt service (\$22.6 million and \$21.2 million for fiscal years 2008 and 2007, respectively) or; (2) to pay for the ongoing cost of the streetlight and services districts (\$626,000 and \$754,000 for fiscal years 2008 and 2007, respectively) or; (3) for inventory (298,000 for fiscal year 2008) and (4) for miscellaneous receivables (\$3.0 million for fiscal year 2008).

Revenues for governmental functions overall totaled approximately \$426.6 million in fiscal year 2008, an increase of 0.2 percent (\$903,000) over the previous year total of \$425.7 million. In fiscal year 2008 expenditures for governmental functions, totaled \$570.6 million, an increase of 17.8 percent (\$86.2 million) over the fiscal year 2007 total of \$484.4 million. In the fiscal years ended June 30, 2008 and 2007 expenditures for governmental functions exceeded revenues by approximately \$144.0 million (33.8 percent) and \$58.7 million (13.8 percent), respectively. The excess in both years was due to the City financing some capital projects with debt proceeds received in prior years which was reflected in beginning fund balance.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unreserved fund balance of the General Fund was \$61.4 million, while total fund balance was \$62.3 million. The unreserved and total balances for the General Fund at the end of fiscal year 2007 were \$89.5 million and \$90.3 million, respectively. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 24.2 percent of the total General Fund expenditures of \$253.9 million in fiscal year 2008 and 39.2 percent of the total General Fund expenditures of \$228.6 million in fiscal year 2007. Total fund balance represents 24.5 percent and 39.5 percent of total fund expenditures for fiscal years 2008 and 2007, respectively. In fiscal year 2008 management has designated \$31.9 million of the General Fund unreserved fund balance for various uses. See note section III.D in the notes to the financial Statements for further information regarding reservations and designations.

The General Fund Balance decreased in fiscal year 2008 by \$28.0 million is due primarily to a one-time transfer out of the General CIP construction Capital Project Fund to pay for capital projects such as new police and fire facilities. General Fund performance also reflects a slowing economy and more modest revenue growth than previous growth years. Overall, the General Fund's performance resulted in revenues over expenditures in the fiscal year ended June 30, 2008, of \$18.7 million.

The General Obligation Bond Debt Service fund is used to account for the accumulation of resources for, and the payment of, general obligation long-term debt principal, interest and related costs. At the end of the current fiscal year, the fund balance of the General Obligation Bond Debt Service Fund was \$9.5 million, an increase of \$137,000 from the \$9.4 million at the end of fiscal year 2007 an increase due to debt service payments.

The General CIP Construction Capital Projects fund accounts for the resources used to acquire, construct and improve major capital facilities, other than those financed by proprietary funds. These expenses were primarily funded by pay-as-you-go transfers. As such, the 101.1 million fund balance is about the same as the end of the fiscal year 2007. Capital improvement expenditures in 2008 and 2007 were \$101.7 million and \$84.1 million, respectively, an increase of \$17.6 million. Although capital improvement expenditures increased during fiscal year 2008, the fund balance remained the same due to a transfer of \$43,000,000 from the General Fund to the General CIP Construction Fund to cover existing capital improvements in the 5 year plan.

Proprietary Funds

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the fiscal years 2008 and 2007, the unrestricted net assets for the Water and Sewer Utility were \$281.1 million and \$214.0 million, respectively; Scottsdale Airport were \$4.9 million and \$4.4 million, respectively; and the Solid Waste Utility Fund were \$7.1 million and \$6.2 million, respectively. The Internal Service Funds, which are used to account for certain governmental activities, also had unrestricted net assets of \$29.5 million and \$20.1 million, respectively.

The total growth in net assets for the Enterprise Funds was \$75.0 million and \$80.6 million for fiscal years 2008 and 2007, respectively. Factors concerning the finances of these funds have been addressed previously in the discussion of the City's business-type activities. In particular, the Scottsdale Water and Sewer net assets increased by \$71.2 million due to capital contributions of \$48.1 million as well as increased revenues.

Fiduciary Funds

The City maintains fiduciary funds for the assets of the Family Self-Sufficiency Agency Fund, the Retainage Escrow Agency Fund, and the Handicap Scholarship Private Purpose Trust Fund. As of the end of fiscal year 2008, the net assets of the Handicap Scholarship Private Purpose Trust Fund totaled \$4,000.

General Fund Budgetary Highlights

The City adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

The City's final year-end budget differs from the original adopted budget due to City Council approved budget contingency adjustments that were made throughout the fiscal year. In fiscal year 2008, there was an increase in expenditure budgets; however, the City maintained an excess of revenues over expenditures and did not exceed the total budgeted appropriations for the year. The City Council approved the use of contingency and increased the budget for the continuation of the Loop 101 Photo Enforcement, funding needed to comply with EPA particulate matter (PM-10) air quality standards, funding for additional staff for the City's Stormwater Management Program, legal fees, and budgetary transfers to the Fleet Management Fund for vehicle acquisitions. Net budget increases for expenditures by department totaled \$3.0 million and \$1.5 million for fiscal years 2008 and 2007, respectively. The net increase is defined as follows:

\$	254,000	General Government
	2,631,000	Police
	(99,000)	Community Services
	(22,000)	Information Systems
	300,000	Municipal Services
	35,000	Citizen & Neighborhood Resources
	(119,000)	Planning and Development
<u>\$</u>	<u>2,980,000</u>	

** Note: Amounts are the difference between the final and adopted budget for each department - See CAFR "Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual"

During the year actual revenues and other resources fell short of budgetary estimates by \$13.9 million compared to an excess of \$12.8 million in fiscal year 2007. This is the result of lower than expected sales taxes, building fees, and state shared revenues – all the result of a slowing national economy.

Capital Assets and Debt Administration

Capital Assets

The City's capital assets for its governmental and business-type activities as of June 30, 2008 and 2007, amount to \$4.4 billion and \$4.0 billion, respectively (net of accumulated depreciation). Capital assets include land, buildings and improvements, water and sewer systems, water rights, vehicles, machinery and equipment, furniture and fixtures, and construction in progress. The total increase in the City's capital assets (net of accumulated depreciation) for the fiscal years 2008 and 2007 was 8.1 percent as shown in the table below.

Capital Assets, Net of Depreciation June 30, 2008 and 2007 (in thousands of dollars)

	Governmental Activities		Business-type Activities		Total	
	2008	2007	2008	2007	2008	2007
Land	\$ 1,221,868	\$ 1,050,083	\$ 37,969	\$ 32,693	\$ 1,259,837	\$ 1,082,776

Major capital asset events during the current fiscal year included the following:

- Construction in progress on the design and construction of the Police Operational Support facilities at 76th Street and McKellips Road. Expenditures totaled \$13.7 million this year against a budget of \$31.9 million.
- Construction in progress on the Downtown Fire Station 2 located at Indian School Road. Expenditures totaled \$4.9 million this year against a budget of \$7.3 million.
- Construction completed this year totaling \$2.6 million on the Vista del Camino Community Center Remodel and Expansion. A building structure was added with a security system. The project's budget totaled \$3.1 million.
- Construction in progress on the infrastructure improvements and 157,000 square foot building at the SkySong ASU Scottsdale Center for Innovation located at Scottsdale and McDowell Road. Expenditures totaled \$8.5 million this year against a budget of \$38.2 million.
- Construction in progress on the acquisition, preservation and restoration of desert lands along Scottsdale Road. Expenditures totaled \$8.0 million this year against a budget of \$26.9 million.
- Construction in progress on the improvements to various facilities located in the area of the City's Airport Terminal and Aviation Business Center building. Expenditures totaled \$2.9 million against a budget of \$3.3 million.

- Construction in progress on the four-lane minor arterial standards with landscaped median, turn lanes, bike lanes, curb and gutter, new all-weather crossing of Indian Bend Wash and sidewalk on the south side. Expenditures totaled \$5.3 million against a budget of \$16.2 million.
- Construction in progress on the four-lane major collector between Pima Freeway and 96th Street and two-lane neighborhood collector between 96th Street and Frank Lloyd Wright. Expenditures totaled \$5.3 million against a budget of \$21.0 million.
- Construction in progress on the six-lane major arterial cross-section with landscaped median, turn lanes, bike lanes, sidewalks, curb and gutter, roadway drainage, and intelligent transportation system facilities. Expenditures totaled \$5.8 million against a budget of \$24.3 million.
- Construction completed this year totaling \$2.9 million on the TPC Desert Golf Course and Clubhouse Renovation. The project provided a major renovation of the existing Desert Golf Course and its associated golf course features.
- The City's water and sewer 5-year capital improvement plan includes significant cost impacts from "unfunded" federal water quality mandates for treatment of arsenic and disinfection by-product requirements, in addition to plant and infrastructure expansion to accommodate growth. The most significant CIP cash expenditures, forecasted in the 5-year plan include:
 - Arsenic Mitigation Treatment (\$9.1 million) – design and construction of arsenic removal treatment facilities and related distribution systems at various satellite sites throughout the City to comply with the Safe Drinking Water Act Arsenic Rule. The Safe Drinking Water Act lowered the maximum allowable levels for arsenic in drinking water from 50 ppb to 10 ppb as of January 2006. This new level for arsenic will require the City to utilize arsenic mitigation treatment systems in accordance with the 2001 Water Resources Master Plan. The project's budget totals \$88.5 million;
 - CAP Plant expansion (\$35.1 million) – expansion of the existing CAP Water Treatment Plant from its current capacity of 50 million gallons per day (mgd) to a minimum capacity of 75 mgd to meet planned demand. This will further reduce the use of groundwater and increase use of surface water. The project's budget totals \$90.0 million.
 - Well Sites (\$4.4 million) – Design and construction of new wells and upgrade of existing wells at locations determined consistent with the Master Plan for water system demand. The City will still need to replace existing wells once the well has reached its useful life, a new well will be needed to replace it. The project's budget totals \$23.1 million.
 - CAP Plant Regulatory Compliance (\$19.9 million) – Addition of granular activated carbon facility at the CAP Water Treatment Plant in order to ensure compliance with the new Federal water quality rule regarding disinfection by-products (DBP). The project's budget totals \$59.4 million.
 - Water Rights Acquisition (\$25.5 million) – Provides for acquisition, development and management of water resources to meet requirements of build-out demands, securing a long-term assured water supply and the Congressional passage of the Arizona Water Settlement Act and signing of the Gila River Indian Community Agreement Water Lease. The project's budget totals \$66.2 million.

- Water Distribution System Improvements (\$4.6 million) – Provides for water distribution system improvements needed due to age of the system and increasing demand. Includes replacement of mains, meters and valves, as well as design and construction of new water mains at various locations throughout the distribution system to improve service and to reduce operating costs. The project's budget totals \$34.5 million.
- SROG Wastewater Plant Expansion UP01 (\$11.8 million) – Provides for additional sewer flow and solids handling capacity through contribution to the capital improvements at the Multi-City 91st Avenue Wastewater Treatment Plant located in Phoenix. Capacity expansion is due to planned increased demand. The City of Scottsdale proportionate cost shared is derived through existing intergovernmental agreements with the Multi-City Sub-Regional Operating Group (SROG). This expansion is designated as the Unified Plant 2001 (UP01). The project's budget totals \$64.1 million.

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures. See Section IV.C in the notes to the financial statements for further information regarding capital assets.

Debt Administration

At the end of the fiscal years 2008 and 2007, the City had total long-term obligations outstanding of \$1,229.0 million and \$1,029.9 million, respectively. Of these amounts, \$574.4 million and \$476.2 million, respectively, are General Obligation Bonds backed by the full faith and credit of the City. The remainder includes revenue bonds, certificates of participation, and other obligations of \$654.6 million and \$553.7 million, respectively.

Total Long-Term Liabilities	\$ 900,872	\$ 803,244	\$ 328,154	\$ 226,662	\$ 1,229,026	\$ 1,029,906

During fiscal years 2008 and 2007, the City's total bonded debt increased by approximately \$199.0 million and \$2.5 million, respectively. The City issued \$100.0 million and \$20 million of new various purpose bonds and preservation bonds (Governmental activities), respectively, in fiscal year 2008. The new bond costs were partially offset by the reduction of bond payable balances due to principal payments made in fiscal year 2008. The City also issued \$105.9 million of new Municipal Property Corporation Excise Tax Revenue bonds (Business-Type activities) in fiscal year 2008 and \$35.3 million in Water and Sewer Revenue Refunding Bonds.

The State constitution imposes certain debt limitations on the City of six percent (6%) and twenty percent (20%) of the outstanding assessed valuation of the City. The City's available debt margin at June 30, 2008 and 2007 is \$285.0 million and \$199.8 million, respectively, in the 6% capacity and \$1,024.0 million and \$678.4 million, respectively, in the 20% capacity. Additional information on the debt limitations and capacities may be found in Section IV.F. of the notes to the financial statements and also in Table XVIIa in the Statistical Section of this report.

In accordance with Statement No. 45 of the Governmental Accounting Standards Board - GASB (Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions), the Net Other Post-Employment Benefit Obligation (NOPEBO) included in the Outstanding Debt table (above) represents the City's actuarial required contribution (ARC) pursuant to the actuarial calculations for the accrued cost of retiree health insurance as of June 30, 2008. The NOPEBO at the end of the fiscal years 2008 and 2007 were \$1,325,000 and \$607,000, respectively. The City is self insured and funds employee healthcare costs with current funds and designates a reserve for actuarially determined incurred but not reported claims (IBNR), and partial funding for the ARC.

The City's most recent bond ratings as provided by the three major credit rating agencies; Moody's Investors Service, Standard & Poor's Rating Services, and Fitch Ratings, are shown in the following table:

**City of Scottsdale Bonded Debt Ratings
As of June 30, 2008**

	Moody's Investors Service	Standard and Poor's Rating Group	Fitch Investors Service, Inc.
General Obligation (GO)	Aaa	AAA	AAA
Municipal Property Corp (MPC)	Aa1	AAA	AA+
Water and Sewer Revenue (W&S)	Aa1	AAA	AA+
Highway User Revenue Fund (HURF)	Aa3	AA	Not Rated
Scottsdale Preserve Authority (SPA)	Aa2	AA	AA

Additional information on the City's long-term debt can be found in Section IV.F. of the notes to the financial statements.

Economic Factors and Next Year's Budget and Rates

The City of Scottsdale Arizona's fiscal year 2009 budget funded the highest priorities of the City Council and our citizens, including the hiring of additional police officers and firefighters, and the opening of new City capital facilities to meet service demands. Current economic conditions allow the City to maintain core services, and, in some cases, to provide enhancements to existing service levels. In developing the fiscal 2009 budget, staff sought to use realistic revenue forecasts without relying on one-time construction related revenues to fund ongoing operating budget expenditures, and to limit staff additions to high priority service areas and citizen demands. The budget also continues to fund needed investment in the City's infrastructure and facilities while maintaining prudent financial reserves.

In spite of the challenging economic condition, the fiscal year 2009 budget did not require any service level reductions. This was accomplished by adhering to our adopted comprehensive financial policies, a thorough reassessment of the base budget and a critical evolution of all proposal additions to the budget.

Main adjustments to the base budget included increasing our vacancy savings estimate and adjusting non-personal accounts to historical spending levels. In addition, a net 9.9 fulltime equivalent (FTE) positions were added. Staff was added in the General Fund to maintain the new public safety radio system, enforce new air quality regulations, and manage the preserve. Additional staff was added in the Water and Sewer Fund to address the service demands of opening new facilities.

The fiscal 2009 budget also includes funding to support changes in health care and retirement system costs as well as a market and merit compensation adjustments for City staff. The adopted budget includes a 2.0 percent market adjustment effective January 1, 2009. Other significant cost increases included jail services, fire dispatch, public transit and fuel.

A separate, key component of the annual financial plan is the City's five-year Capital Improvement Plan (CIP) for infrastructure and public facilities including roads, water and sewer improvements, parks, buildings and information technology. The adopted CIP appropriation for fiscal year 2009 is \$859.3 million, which includes \$710.7 million (or 82 percent of the total) re-budgeted from the prior year. Under Arizona law, the City must re-budget for a capital project until it is completed. Some examples of major projects included in the CIP budget are:

- **Community Facilities** – Acquisition, preservation, and restoration of desert lands along Scottsdale Road to promote its designation as a Scenic Corridor; infrastructure to support site development of the Sky Song facility; and, design and construction of the Appaloosa library.
- **Preservation** – Construction of trails supporting the gateway to the preserve and expansion of preserve lands.
- **Drainage and Flood Control** – Drainage improvements to several areas within Scottsdale including the Granite Reef Watershed, Indian School Road drainage, and a Powerline Interceptor channel.
- **Public Safety** – Construction of the Desert Foothills Fire Station 13, Cactus Acres Fire Station 8 and Radio replacement system.

- **Service Facilities** – Corporation Yard Fleet Maintenance Facility Expansion, Solid Waste Transfer Station Expansion and Computer Facility Infrastructure Improvements.
- **Transportation** – Improvements to several main Scottsdale thorough ways including Indian School Road – Drinkwater to Pima Freeway, and Pima Road – Deer Valley to Pinnacle Peak. Additionally, improvements will be made to bicycle lanes, enhanced sidewalks, and provide for Loop 101 Park and Ride lot.
- **Water Services** – Expansion of the existing CAP water Treatment Plant, modification and improvements to water distribution and sewer collection system improvements.

The adopted budget continues the practice of designating a reserve equal to 10 percent of the General Fund and Highway User Fund program budgets to ensure the City can provide basic services in the event of major emergencies. This amount is \$30.0 million.

Requests For Information

This financial report is designed to provide a general overview of the City's finances for all of those with an interest in the government's finances. If you have questions about this report or need additional financial information, contact:

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

June 30, 2008 (in thousands of dollars)

Fund Balances -Total Governmental Funds	\$ 335,758
Amounts reported for governmental activities in the statement of net assets are different because (see Note II A):	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	3,102,461
Bond issuance costs are not financial resources and, therefore, are not reported in the funds.	3,664
Long-term receivables are not due and receivable in the current period and, therefore, are not reported in the funds.	18,313
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds.	(900,425)
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current period expenditures. Those assets are offset by deferred revenue in the funds.	18,011
Internal Service Funds are used by management to charge the costs of certain activities, such as, insurance and vehicles to individual funds. The assets and liabilities of the Internal Service Funds are included in governmental activities in the statement of net assets.	<u>55,963</u>
Net Assets of Governmental Activities	<u>\$ 2,633,745</u>

The notes to the financial statements are an integral part of this statement.

Statement of Revenues, Expenditures, and Changes in Fund Balances

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended June 30, 2008 (in thousands of dollars)

Net Change in Fund Balances - Total Governmental Funds	\$ (7,740)
--	------------

Amounts reported for governmental activities in the statement of activities are different because (see Note II B):

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	67,603
--	--------

Donations of capital assets are not reflected on the governmental fund statements but are shown in the statement of activities.	145,290
---	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and; therefore, are not reported as expenditures in governmental funds.	(1,910)
---	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	2,417
--	-------

Bond issuance costs are expended in the governmental funds when paid, and are capitalized and amortized in the statement of net assets. This is the amount by which current year bond issuance costs exceed amortization expense in the current period.	739
---	-----

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction; however, has any effect on net assets. This is the amount by which debt proceeds exceeded principal retirement in the current period.	(93,141)
--	----------

Additional interest accretion calculated on bonds and notes payable and amortization of bond premium and deferred amounts on refunding.	(517)
---	-------

Long-term contracts initiated during the current year are not reported in governmental funds and thus do not contribute to the change in fund balance. In the government-wide statements, however, entering into a contract payable increases long-term liabilities in the statement of net assets.	899
---	-----

The net revenues of certain activities of internal service funds is reported with governmental activities.	6,903
--	-------

Changes in Net Assets of Governmental Activities	<u>\$ 120,543</u>
--	-------------------

The notes to the financial statements are an integral part of this statement.

General Fund

Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual

For the Year Ended June 30, 2008 (in thousands of dollars)

Explanation of Differences:

Items recorded as revenues for GAAP purposes that are not recorded for budget purposes:

Change in Fair Value of Investments	\$ 600
	<hr/>
Total Revenue Reconciling Items:	600
	<hr/>

The City budgets for certain expenditures on the cash basis, rather than on the modified accrual basis:

Claims and Compensated Absences	1,913
Bad Debt Expense	192
	<hr/>
Total Expenditure Reconciling Items:	2,105
	<hr/>

Net Decrease in Fund Balance - Budget to GAAP	<u>\$ (1,505)</u>
---	-------------------

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Reporting Entity

The City of Scottsdale, Arizona (City) was incorporated in 1951. The current City Charter was adopted in 1961, which established the Council/Manager form of government. The City provides basic government services to its citizens including roads, water, sewer, solid waste management, public transit, parks and recreation facilities, police and fire.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The following is a summary of the more significant policies.

The financial reporting entity presented in these financial statements consists of the City of Scottsdale, Arizona (the primary government) and its component units. The component units discussed below are included in the City’s reporting entity because of the significance of their operational or financial relationships with the City.

Component Unit	Description and Criteria for Inclusion	Reporting Method	For Separate Financial Statements
City of Scottsdale Municipal Property Corporation (MPC)	<ul style="list-style-type: none"> • Non-profit corporation created in 1967. • Sole purpose is to construct, acquire, and equip buildings, structures or land improvements for the City. • Governed by Board of Directors appointed by the City Council. • For financial reporting purposes, transactions are included as a governmental and proprietary fund type, as if part of the City’s operation. 	Blended	City of Scottsdale Finance Department Accounting Division 7447 E. Indian School Rd. Ste. 210 Scottsdale, AZ 85251
Scottsdale Preserve Authority (SPA)	<ul style="list-style-type: none"> • Non-profit corporation created in 1997. • Sole purpose is to finance land acquisitions for McDowell Sonoran Preserve. • Governed by a Board of Directors appointed by the City Council. • For financial reporting purposes, transactions are included as a governmental fund type, as if part of the City’s operation. 	Blended	City of Scottsdale Finance Department Accounting Division 7447 E. Indian School Rd. Ste. 210 Scottsdale, AZ 85251
Scottsdale Mountain Community Facilities District (CFD)	<ul style="list-style-type: none"> • Formed by 1992 petition to City Council. • Created to acquire and improve public infrastructure in specified land area. • Able to levy taxes and issue bonds independent of the City. • Property owners within the designated area are assessed for District taxes and costs of operation. • City Council serves as the Board of Directors. • The City has no liability for the District debt. • For financial reporting purposes, transactions are included as a governmental fund type, as if part of the City’s operation. 	Blended	City of Scottsdale Finance Department Accounting Division 7447 E. Indian School Rd. Ste. 210 Scottsdale, AZ 85251

Indian School Rd. Ste. 210 Scottsdale, AZ 85251</p>

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses for a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and trust fund financial statements. Agency funds do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers revenues to be available if they are collected within 30 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to vacation, sick leave, claims, and judgments, are recorded only when payment is due.

Property taxes, other local taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the City receives cash.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *General Obligation Bond Debt Service Fund* is used to account for the accumulation of resources for, and the payment of, long-term obligation debt principal, interest, and related costs.

The *General CIP Construction Capital Projects Fund* accounts for the resources used to acquire, construct and improve major capital facilities, other than those financed by proprietary funds. Capital Projects Funds allow the City to compile project cost data and demonstrate that legal or contractual requirements regarding the use of the resources are fully satisfied.

The government reports the following major proprietary funds:

The *Water and Sewer Utility, Airport and Solid Waste Funds* account for the operating revenues and expenses of the City's water and sewer utility systems, airport and sanitation services (solid waste, brush removal, container maintenance, etc.), respectively.

Additionally, the government reports the following fund types:

The *Internal Service Funds* account for fleet management and self-insurance services provided to other departments or units of the City, on a cost-reimbursement basis.

The *Agency Funds* are purely custodial (assets equal liabilities) and do not involve measurement of results of operations. The City's agency funds are used to record the Family Self-Sufficiency activity and Retainage Escrow activity.

The *Private-Purpose Trust Funds* are used to account for assets held in a trustee capacity for scholarships and other purposes as designated by the donors or by legal restrictions. Both the principal and earnings of these expendable trust funds can be expended for the trusts' intended purposes.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

In general, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this rule are payments-in-lieu of taxes, indirect costs and franchise fees and other charges between the City's General Fund, Water and Sewer Utility Fund, Airport Fund, and Solid Waste Fund, because elimination of these charges would distort the direct costs and program revenues reported in the Statement of Activities.

Amounts reported as program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with the fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges for customer services including: water, sewer, airport, and solid waste fees, vehicle purchase amounts and risk management charges. Operating expenses for enterprise funds and internal service funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first; then unrestricted resources as they are needed.

D. Assets, Liabilities, and Net Assets or Equity

1. Deposits and Investments

Cash equivalents for purposes of the statements of cash flows are investments (including restricted assets) in mutual funds, demand deposits, repurchase agreements, and U.S. Treasury bills and notes with maturities of three months or less at acquisition date.

GASB Statement No. 31 provides that governmental entities may report all investments at fair value or they may elect to report certain money market investments and participating interest-earning investment contracts at amortized cost. The City has elected to report all investments at fair value. The City's policy is to invest in certificates of deposit, repurchase agreements, commercial paper, direct U.S. Treasury debt, securities guaranteed by the United States Government or any of its agencies, and the State of Arizona Local Government Investment Pool (LGIP). The LGIP is overseen by the State of Arizona. The fair value of each share in the LGIP is \$1.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are classified as "due to/from other funds" (i.e., the current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All accounts, property tax and court receivables are shown net of an allowance for uncollectibles. All receivables in excess of one year comprise the allowance for uncollectibles at June 30, 2008.

The City's property tax is levied each year on or before the third Monday in August based on the previous January 1 full cash value as determined by the Maricopa County Assessor. Levies are due and payable in two installments, on October 1 and March 1, and become delinquent on November 1 and May 1, respectively. A lien attaches to the property on the first day of January preceding the assessment and levy of taxes. Delinquent amounts bear interest at the rate of 16 percent. Maricopa County, at no charge to the taxing entities, bills and collects all property taxes. Public auctions of properties which have delinquent real estate taxes are held in February following the May 1 date upon which the second half taxes become delinquent.

Property taxes levied for current operation and maintenance expenses on residential property are limited to 1.0 percent of the primary full cash value of such property. In addition, taxes levied for current operation and maintenance expenses on all types of property are limited to a maximum increase of 2.0 percent over the prior year's levy, adjusted for new construction and annexations. Property taxes levied to pay principal and interest on bonded indebtedness are not limited.

3. Inventories

Inventories of the governmental funds are recorded under the consumption method. Inventories are recorded as expenditures when consumed rather than when purchased. Inventories are valued at year-end based on cost, with cost determined using an average cost method.

4. Restricted Assets

Certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the proprietary funds statement of net assets because they are maintained in separate bank accounts and their use is limited by applicable bond covenants. The revenue bond renewal and replacement account is used to report resources set aside to meet unexpected contingencies or to fund asset renewals and replacements.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, sidewalks and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements, and proprietary funds financial statements. The government defines capital assets, as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Assets contributed (donated) to those funds are recorded by reference to historical costs of the donor if recently purchased or constructed, or if such records are not available, at estimated fair market value on the date of receipt.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Depreciation and amortization of all assets are recorded and calculated using the straight-line method over the following estimated useful lives:

<u>Asset Type</u>	<u>Estimated Life</u>
Water System	10 to 75 Years
Sewer System	25 to 50 Years
Buildings and Improvements	25 to 50 Years
Streets and Storm Drains	30 Years
Land Improvements	25 Years
Machinery and Equipment	5 to 20 Years
Motor Vehicles	3 to 15 Years
Furniture, Fixtures, and Office Equipment	5 to 10 Years
Maintenance by Fleet	3 to 15 Years

The excess purchase price over fair market value of assets acquired in the Water and Sewer Utility Enterprise Fund is amortized on the straight-line method over 20 to 60 years.

When capital assets are disposed of, the cost and accumulated depreciation or amortization is removed from the accounts, and any resultant gain or loss is recognized in the government-wide and proprietary fund financial statements.

6. Compensated Absences

Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered. Employees may accumulate up to a maximum number of hours of vacation depending on years of service, but any vacation hours in excess of the maximum amount unused at year-end are forfeited. The City's policy is to pay employees for unused accumulated vacation hours at termination or retirement. Sick leave time can be accumulated without limit. The City's policy, however, is that only those employees hired full-time before July 1, 1982 are paid for unused sick leave at death or retirement. Employees who retire on or after July 1, 1996, and who have accumulated 300 or more hours of sick leave, may elect to apply the value of the sick leave toward their City medical plan premiums.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for the current amount of compensated absences is recorded as a current liability at June 30 in the governmental and proprietary funds. The current liability represents compensated absences that have matured, but were not paid as of June 30 that resulted from employee resignations and retirements. The current compensated absences amount in the governmental funds is combined with accrued payroll and other payroll related amounts in the accrued payroll and benefits line item. The City calculates this current amount based on vacation taken and an actuarial valuation dated January 1, 2008, for medical leave conversion. There is no long-term liability for compensated absences in the governmental funds.

7. Long-term Obligations

In the government-wide financial statements and the proprietary funds financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount and deferred amounts on refundings. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received are reported as debt service expenditures.

8. Fund Equity

In the fund financial statements, governmental funds report reservations, of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent management plans that are subject to change.

9. Net Assets

The government-wide and proprietary fund financial statements utilize a net assets presentation. Net assets are categorized as invested in capital assets (net of related debt), restricted, and unrestricted.

Invested in Capital Assets, Net of Related Debt – This category groups all capital assets, including infrastructure, into one component of net assets. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction, or improvement of these assets reduce the balance in this category.

Restricted Net Assets – This category represents net assets that have external restrictions imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets – The category represents net assets of the City, not restricted for any project or other purpose.

E. Implementation of New Accounting Principles

1. Governmental Accounting Standards Board Statement No. 48

The City adopted the provisions of GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*. This Statement establishes criteria that governments will use to ascertain whether the proceeds received should be reported as revenue or as a liability. The criteria should be used to determine the extent to which a transferor government either retains or relinquishes control over the receivables or future revenues through its continued involvement with those receivables or future revenues. In addition to clarifying guidance (amends Statement No. 34, *Basic Financial Statements-Management's Discussion and Analysis-for State and Local Governments*) on accounting for sales and pledges of receivables and future revenues, Statement No. 48 enhances disclosures pertaining to future revenues that have been pledged or sold. These disclosures are intended to provide financial statement users with information about which revenues will be unavailable for other purposes and for how long.

2. Governmental Accounting Standards Board Statement No. 50

The City adopted the provisions of GASB Statement No. 50, *Pension Disclosures*. This Statement more closely aligns the financial reporting requirements for pensions with those for other postemployment benefits (OPEB) and, in doing so, enhances information disclosed in notes to financial statements or presented as required supplementary information (RSI) by pension plans and by employers that provide pension benefits. The reporting changes required by this Statement amend applicable note disclosure and RSI requirements of Statement No. 25, *Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans*, and No. 27, *Accounting for Pensions by State and Local Governmental Employers*, to conform with requirements of Statement No. 43, *Financial Reporting for Postemployment Benefits Plans Other Than Pension Plans*, and No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of nets assets.

The City's total governmental fund balances, \$335,758, differs from net assets of governmental activities, \$2,633,745, reported in the statement of net assets. The difference primarily results from the long-term economic focus in the statement of net assets versus the current financial resources focus in the governmental fund, balance sheet.

Reconciliation of Governmental Funds Balance Sheet and the Government-wide Statement of Net Assets
(in thousands of dollars)

Fund Balances/Net Assets					
Total Fund Balances/Net Assets	335,758	2,242,024	55,963	-	2,633,745
Total Liabilities and Fund Balances/Net Assets	<u>\$ 442,927</u>	<u>\$ 3,124,438</u>	<u>\$ 68,579</u>	<u>\$ (114)</u>	<u>\$ 3,635,830</u>

- (1) When capital assets (land, buildings, equipment, etc) that are to be used in governmental activities are purchased or constructed, the costs of those assets are reported as expenditures in governmental funds. However, the statement of net assets includes those capital assets among the assets of the City as a whole.

Cost of capital assets	\$ 4,331,222
Accumulated depreciation	<u>(1,228,761)</u>
	<u>\$ 3,102,461</u>

Bond issuance costs are expended in governmental funds when paid, and are capitalized and amortized over the life of the corresponding bonds for purpose of the statement of net assets.

Bond issuance costs @ 7/1/07	\$ 2,924
Bond issuance cost for fiscal year 2008	1,028
Amortization of bond issuance costs	<u>(288)</u>
	<u>\$ 3,664</u>

Long-term receivables applicable to the City's governmental activities are not due and receivable in the current period and accordingly are not reported as fund receivables in the governmental funds. All receivables, both current and long-term, are reported in the statement of net assets.

\$ 18,313

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly are not reported as fund liabilities in the governmental funds. All liabilities, both current and long-term, are reported in the statement of net assets. Balances at June 30, 2008 were:

Contract and capital lease payables	\$ (18,016)
Bonds payable	(849,921)
Deferred amount on refunding	9,410
Deferred issuance premium	(19,257)
Accrued vacation and sick leave pay	(21,486)
Post Employment - Implied Subsidy	<u>(1,155)</u>
	<u>\$ (900,425)</u>

Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current period expenditures. Those assets (for example, receivables) are offset by deferred revenues in the governmental funds and thus are not included in fund balance. Deferred revenue for the long-term special assessment receivables shown on the governmental fund statements is not deferred on the statement of net assets. Certain tax and other revenues deferred under modified accrual for governmental fund statements, is recognized as revenue under accrual accounting for the government-wide statements.

Deferred special assessment revenue	\$ 3,217
Deferred court revenue	9,688
Deferred tax revenue	3,991
Deferred other	<u>1,115</u>
	<u>\$ 18,011</u>

- (2) Internal Service Funds are used by management to charge the costs of certain activities, such as fleet management and self insurance, to individual funds. The assets and liabilities of certain Internal Service Funds are included in governmental activities in the statement of net assets.

\$ 55,963

B. Explanation of certain differences between the governmental funds statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The net change in fund balances for governmental funds, \$(7,740), differs from the change in net assets for the governmental activities, \$120,543, reported in the statement of activities. The differences arise primarily from the long-term economic focus in the statement of activities versus the current financial resources focus in the governmental funds. The effect of the differences is illustrated below.

Reconciliation of Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (in thousands of dollars)

**Reconciliation of Governmental Funds Statement of Revenues, Expenditures, and Changes
in Fund Balances and the Government-wide Statement of Activities (in thousands of dollars)**

Reconciling Items Description:

- (3) Because some property taxes will not be collected for several months after the City's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Similarly, other revenues are not currently available at year-end and are not reported as revenue in the governmental funds.

Property taxes	\$	193
Court revenue		1,874
Tax audit revenue		604
Special Assessment revenue		(720)
Intergovernmental revenue		(649)
Other Receivable revenue		1,115
	<u>\$</u>	<u>2,417</u>

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Accrual for long-term compensated absences	\$	(1,276)
Accrual for long-term post employment implied subsidy		(634)
	<u>\$</u>	<u>(1,910)</u>

- (4) When capital assets that are to be used in governmental activities are purchased or constructed, the resources expended for those assets are reported as expenditures in governmental funds. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. As a result, fund balance decreases by the amount of financial resources expended, whereas net assets decrease by the amount of depreciation expense charged for the year, and the loss on disposal of capital assets.

Capital expenditures	\$	168,569
Depreciation Expenses		(100,580)
Loss on disposal of capital assets		(386)
Difference	<u>\$</u>	<u>67,603</u>

Donations of capital assets are not shown on the governmental fund statements, but are included in the assets of the City. On the statement of activities, these donations are shown as capital contributions.

Capital Contributions	\$	<u>145,290</u>
-----------------------	----	----------------

- (5) Internal Service funds are used by management to charge the costs of certain activities, such as insurance and motor pool, to the individual funds. The adjustments for internal service funds close those funds by charging additional amounts to participating governmental activities to completely cover the internal service funds' costs for the year.

Change in Net Assets	\$	<u>6,903</u>
----------------------	----	--------------

(continued)

**Reconciliation of Governmental Funds Statement of Revenues, Expenditures, and Changes
in Fund Balances and the Government-wide Statement of Activities (in thousands of dollars)**

(6) Bond issuance costs are reported as an expenditure in governmental funds in the year of bond issuance and thus, have the effect of reducing fund balance because current financial resources have been used. For the government-wide statements; however, the bond issuance costs are deferred and amortized (expensed) over the life of the bonds.

Bond issuance costs for fiscal year 2008	\$	1,028
Amortization of bond issuance costs		(289)
Difference	<u>\$</u>	<u>739</u>

Repayment of bond principal is reported as an expenditure in governmental funds and, thus, has the effect of reducing fund balance because current financial resources have been used. For the government-wide statements, however, the principal payments reduce the liabilities in the statement of net assets and do not result in an expense in the statement of activities.

Principal payments made	<u>\$</u>	<u>33,043</u>
-------------------------	-----------	---------------

Interest expense in the statement of activities differs from the amount reported in governmental funds because additional accrued and accreted interest was calculated for bonds and notes payable, and additional interest expense was recognized on the amortization of bond discount and premiums which are expensed within the fund statements.

Amortization of deferred charges on refundings	\$	(4,022)
Interest accretion and amortization		(701)
Amortization of bond premium and discounts		4,206
	<u>\$</u>	<u>(517)</u>

Bond proceeds are reported as financing sources in governmental funds and thus contribute to the change in fund balance. In the government-wide statements, however, issuing debt increases long-term liabilities in the statement of net assets and does not affect the statement of activities. Proceeds were received from:

Revenue Bonds	\$	(123,805)
Premium on Bonds		(2,379)
	<u>\$</u>	<u>(126,184)</u>

Long-term contracts initiated during the current year are not reported in governmental funds and thus do not contribute to the change in fund balance. In the government-wide statements, however, entering into a contract payable increases long-term liabilities in the statement of net assets and incurs an expense.

	<u>\$</u>	<u>899</u>
--	-----------	------------

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget and Budgetary Accounting

The City prepared an annual budget that covered fiscal year 2007/08. The 2007/08 budget appropriation is established and reflected in the financial statements as follows:

The City Council formally adopts the budget and legally allocates, or appropriates, available monies for the General Fund, Special Revenue Funds (Highway User Fuel Tax and Preserve Privilege Tax), and Debt Service Funds (except for the Community Facilities Districts Debt Service Funds). Therefore, these funds have appropriated budgets, and budget to actual information is presented.

The Community Development Block Grant, Home, Grants, Section 8, and Special Programs Special Revenue Funds, Community Facilities Districts Funds, Capital Projects Funds, Enterprise Funds, Internal Service Funds, and Trust and Agency Funds have non-appropriated budgets. Accordingly, no comparison of budget to actual is presented in the financial statements for these funds. Budgets for the Community Development Block Grant, Grants, and Section 8 Funds are established pursuant to the terms of the related grant awards. Budgets for the Community Facilities Districts are established in accordance with Arizona Revised Statutes, which do not require their inclusion in the City budget or adoption by the City Council. Budgets for Capital Projects Funds are established for individual projects and unexpended funds are re-appropriated each year until the project is completed and capitalized. Budgets for Enterprise Funds are established in order to help departments control operational costs. Budgets for Internal Service Funds are established in order to help departments control operational costs. Budgets for Trust and Agency Funds are established in accordance with the trust/agency agreements.

On or before the second regular Council meeting in May, the City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.

Two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments.

In June, the budget is legally enacted through passage of an ordinance. The ordinance sets the limit for expenditures during the fiscal year. Additional expenditures may be authorized for expenditures directly necessitated by a natural or man-made disaster as prescribed in the State Constitution, Article 9, Section 20. During 2007/08, there were no supplemental budgetary appropriations to the original budget.

The expenditure appropriations in the adopted budget are by department. The maximum legal expenditure permitted for the fiscal year is the total budget as adopted. Departmental appropriations may be amended during the year.

Upon the recommendation of the City Manager, and with the approval of the City Council: (1) transfers may be made from the appropriations for contingencies to departments; and (2) unexpended appropriations may be transferred from one department to another.

Management control of budgets is further maintained at a line item level within the department.

All expenditure appropriations that have not been expended lapse at year-end. The City discontinued the use of encumbrance accounting, as such, fund balance amounts are not reserved for purchase orders, contract or other commitments.

B. Excess of Expenditures over Appropriations

The Preserve Privilege Tax Special Revenue Fund exceeded its Special Revenue Expenditures appropriation by \$2,000. Administrative costs incurred, which were not included in the expenditures appropriation, were funded by available fund balance.

The Special Assessment Debt Service Fund exceeded its Debt Service Expenditures appropriation by \$1,000. Administrative costs incurred, which were not included in the expenditures appropriation, were funded by available fund balance.

C. Deficit Fund Equity

The Community Development Block Grant Special Revenue Fund had a deficit fund balance of \$38,000, caused by certain grant reimbursements due, which may not be available in the upcoming period. Since these reimbursements are not assured, no revenue was accrued in the current fiscal year. These reimbursements due will be recognized as revenue when available.

D. Fund Balance/Net Assets Reservations and Designations

Only restrictions imposed by external sources are shown as restricted net assets on the government-wide financial statements. Reservations or designations of fund balances are shown in aggregate on the governmental fund financial statements, but not on the proprietary fund financial statements. The City does, however, reserve or designate portions of net assets in other funds to demonstrate the government's intended use of those net assets. Designations are created by administrative policy. The following are the reservations and designations of fund balance/net assets included in the unreserved fund balance/net assets at June 30, 2008:

Fund Balance Reservations and Designations (in thousands of dollars)

General Fund	Major	Nonmajor
Reserved for Inventory	\$ 298	
Reserved\Restricted for Streetlight and Service Districts	626	
Designated for Economic Stabilization Reserve	28,131	
Designated for Photo Enforcement Loop 101	1,361	
Designated for Economic Investment	2,500	
Total	<u>\$ 32,916</u>	
Special Revenue Fund		
Designated for Tourism		<u>\$ 1,235</u>

Capital Projects Fund		
Reserved for Miscellaneous Receivable	<u>\$ 3,000</u>	
Water and Sewer		
Restricted for Repair and Replacement	<u>\$ 26,147</u>	
The amounts presented below detail the City's planned use of the following Unrestricted Net Asset amounts:		
Water and Sewer		
Designated for Operating Reserve	<u>\$ 18,436</u>	
Airport		
Designated for Repair and Replacement	\$ 2,326	
Designated for Operating Reserve	611	
	<u>\$ 2,937</u>	
Solid Waste		
Designated for Operating Reserve	<u>\$ 4,625</u>	
Self-Insurance		
Designated for General Liability Claims	\$ 9,010	
Designated for Health Care Benefits	5,907	
	<u>\$ 14,917</u>	

IV. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

The City maintains a cash and investment pool for use by all funds, except the Community Facilities Districts Funds, which have investments held separately by a trustee.

City Charter, Ordinance, and Trust Agreements authorize the City to invest in obligations of the U.S. Treasury, U.S. Government agencies, Certificates of Deposit, bankers' acceptances, commercial paper (A-1, P-1), repurchase agreements, mutual funds consisting of the foregoing, and the State of Arizona Local Government Investment Pool (LGIP).

Deposits

At June 30, 2008, the carrying amount of the City's deposits was \$119,894,057, and the bank balance was \$126,501,201. The \$9,358,911 difference represents outstanding checks and other reconciling items.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the government's deposits may not be returned to it. As of June 30, 2008, in accordance with the City's policy, the City's deposits were covered by federal depository insurance or by collateral held by the City's agent or pledging financial institution's trust department or agent in the name of the City, and thus had no deposits that were exposed to custodial credit risk.

The custodial credit for investments is the risk that, in the event of the failures of the counterparty (e.g. broker-dealer) to a transaction, the City will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The City's investment policy limits its exposure to custodial credit risk by requiring that all security transactions entered into by the City be conducted on a delivery-versus-payment basis. Securities are to be held by a third party custodian.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits the City's investment portfolio to maturities of less than three years unless matched to a specific cash flow. The following table summarizes the City's interest rate risk, based on maturity dates of various investments:

(in thousands of dollars)

Investment Type	Fair Value	Investment Maturities (in Years)			
		Less Than 1	1 - 2	2 - 3	3+
U.S. Government Securities	\$ 30,906	\$ 20,284	\$ 10,622	\$ -	\$ -
Federal Agency Securities	474,037	192,893 *	197,049 **	84,082 ***	13
Commercial Paper	25,407	25,407	-	-	-
Guaranteed Investment Contracts	475	475	-	-	-
Total Investments	\$ 530,825	\$ 239,059	\$207,671	\$ 84,082	\$ 13

*\$9,504 of these bonds are callable July 14, 2008

**\$20,003 of these bonds are callable between November 12, 2008 and May 12, 2010

***\$71,016 of these bonds are callable between September 3, 2008 and November 26, 2010

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by nationally recognized statistical rating organizations (NRSROs). It is the City's policy to invest in securities with the highest rating issued by NRSROs. Presented below is the rating as of June 30, 2008 for each investment type:

(in thousands of dollars)

Investment Type	Total	A-1+	AAA	Exempt from Disclosure	Not Rated
U.S. Government Securities	\$ 30,906	\$ -	\$ -	\$ 30,906	\$ -
Federal Agency Securities	474,037	29,316	444,721	-	-
Commercial Paper	25,407	25,407	-	-	-
Guaranteed Investment Contracts	475	-	-	-	475
Total Investments	\$ 530,825	\$ 54,723	\$ 444,721	\$ 30,906	\$ 475

Concentration of Credit Risk

The City's investment policy contains no limitations on the amount that can be invested in any one issuer.

The following is a listing by issuer of the City's investments at June 30, 2008:

(in thousands of dollars)

Issuer	Investment Type	Market Value	Percent of Holdings
U.S. Government	U.S. Government Securities	\$ 30,906	5.82%
Federal Home Loan Bank (FHLB)	Federal Agency Securities	181,087	34.11%
Federal Home Loan Mortgage Corp. (FHLMC)	Federal Agency Securities	168,464	31.74%
Federal National Mortgage Association (FNMA)	Federal Agency Securities	86,896	16.37%
Federal Farm Credit Bank (FFCB)	Federal Agency Securities	37,577	7.08%
Government National Mortgage Association (GNMA)	Federal Agency Securities	13	0.00%
Bank of America	Commercial Paper	6,959	1.31%
Svenska Handelsbank Inc.	Commercial Paper	5,121	0.96%
Dexia Delaware LLC	Commercial Paper	4,987	0.94%
Barclays U.S. Funding LLC	Commercial Paper	4,968	0.94%
General Electric Capital Corp.	Commercial Paper	3,372	0.64%
Pacific Life Insurance Company	Guaranteed Investment Contract	475	0.09%
Total Investments		\$ 530,825	100.00%

Investments

Total City cash and investments at fair value are as follows (in thousands of dollars):

Carrying Amount of City Deposits	\$ 119,894
Investments	530,825
Total Cash and Investments	<u>\$ 650,719</u>

Total City cash and investments are reported as follows (in thousands of dollars):

Primary Government	
Cash and Investments	\$ 502,567
Cash with Fiscal Agent	102,494
Restricted Cash	35,406
Handicap Scholarship Private Purpose Trust Fund	4
Family Self-Sufficiency Agency Fund	112
Retainage Escrow Agency Fund	10,136
Total Cash and Investments	<u>\$ 650,719</u>

Investment income comprises the following for the year ended June 30, 2008 (in thousands of dollars):

Net Interest and Dividends	\$	23,476
Net Increase in the Fair Value of Investments		<u>2,621</u>
Total Net Investment Income	\$	<u><u>26,097</u></u>

The net increase in the fair value of investments during fiscal year 2007/08 was \$2,620,679. This amount takes into account all changes in fair value (including purchases and sales) that occurred during the year. The unrealized loss on investments held at June 30, 2008, was \$2,384,628.

In a previous year, the City reported a decrease in fair value of \$7,864,309 consisting of the City's share of a loss on an investment within the Local Government Investment Pool. The State and numerous other bondholders filed suit against the principals, underwriters, trustees, accountants and others in May 2003. The case is presently pending in federal court in Ohio. No reliable assessment of the litigation outcome is available; however, the City has received \$4,146,406 plus interest of \$39,182 as a partial recovery.

B. Receivables

Receivables as of year end for the government’s individual major governmental funds and nonmajor governmental and internal service funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

(in thousands of dollars)

Governmental and Governmental Activities Internal Service Funds:

	General Fund	General Obligation Bond Debt Service	General CIP Construction Capital Projects	Nonmajor and Other Funds	Total Governmental Funds
Receivables					
Property Taxes and Penalties:					
Property	\$ 715	\$ 981	\$ -	\$ 171	\$ 1,867
Court	28,023	-	-	-	28,023

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

(in thousands of dollars)	Unavailable	Unearned
Property Tax	\$ 1,066	\$ -
Special Assessments	3,217	-
Court	9,688	-
Tax Audit	2,925	-

Construction Commitments

The City has active construction projects as of June 30, 2008. At year-end the government's commitments with contractors for specific projects are as follows (in thousands of dollars):

Construction Commitments	Spent to Date	Remaining Commitment
Streets	\$ 105,388	\$ 39,740
Traffic	10,301	2,560
Fire	10,662	2,135
Police	26,885	15,400
Drain/Flood Control	21,674	5,183
Community/Preserve	278,771	21,131
Parks/Recreation	93,438	9,337
Municipal Facilities	20,790	5,137
Technology	15,994	1,383
Libraries	11,743	653
Airport	6,256	201
Transit	22,465	2,251
Water System	429,629	60,232
Sewer System	129,461	2,311
	<hr/>	<hr/>
Total Construction Commitments	<u><u>\$ 1,183,457</u></u>	<u><u>\$ 167,654</u></u>

The traffic commitments are being financed by the 0.2% transportation sales tax, which is reported in the special revenue fund financial statements. All water and sewer system improvement projects are being financed through the use of water or sewer development fees and water or sewer rates.

D. Interfund Balances and Interfund Transfers

Due To and Due From Other Funds

“Due to” and “Due from” balances have been recorded to address temporary cash flow needs. The composition of interfund balances as of June 30, 2008, is as follows:

Receivable Fund (in thousands of dollars)	Amount	Payable Fund (in thousands of dollars)	Amount
General	\$ 114	Nonmajor Governmental Funds	\$ 114
	<hr/>		<hr/>
Total	<u><u>\$ 114</u></u>	Total	<u><u>\$ 114</u></u>

The Community Develop Block Grant Special Revenue Fund had a deficit cash balance of \$114,000, due to grants being received on a reimbursement basis.

Interfund Transfers

Transfers are used to fund capital projects and debt service, reallocate special revenue funds to operating centers or other operations and for indirect administrative cost allocations (including in-lieu property tax and franchise fees) charges to Enterprise Funds.

Net transfers (in thousands of dollar):

E. Leases

Operating Leases

The City has entered into rental agreements of retail and parking facilities. Rental payments on these facilities during fiscal year 2007/2008 were \$3,595,827. Payments are contingent upon sales tax revenues received on the properties; thus, future payments cannot be determined.

Capital Leases

The City has entered into a lease agreement as lessee for financing the acquisition of a modular office building for its fire department training facility. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded in the General Fund at the present value of the future minimum lease payments as of the inception date. The building acquired by this lease agreement is recorded in the Fire System at a value of \$174,713, less accumulated depreciation of \$9,814.

The City has entered into a lease agreement as lessee for financing the acquisition of a modular office building for its water operations. The lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded in the Water and Sewer Fund at the present value of the future minimum lease payments as of the inception date. The building acquired by this lease agreement is recorded in the Water System at a value of \$212,654, less accumulated depreciation of \$8,861.

F. Bonds, Loans, and Other Payables

The following are brief descriptions of bonds outstanding at June 30, 2008. The totals shown are the principal amount outstanding, net of the current portion due July 1, 2008.

There are a number of limitations and restrictions contained in the various bond indentures. The City is in compliance with all significant limitations and restrictions.

General Obligation Bonds

General obligation (GO) bonds are issued, after approval by City of Scottsdale, Arizona voters at an authorized bond election, to finance the construction of water and sewer systems, artificial lighting, parks and open spaces, recreational facilities, and general purpose improvements. At June 30, 2008, the City had \$57,200,000 of unissued various purpose GO bonds, which were authorized in September 2000. The City had no unissued Preservation GO bonds from the September 1999 authorization. In May 2004, voters authorized \$500,000,000 of additional Preservation GO bonds, as well as, an additional 0.15% sales tax increase to be used to finance Preserve land acquisitions. At June 30, 2008, the City had \$460,000,000 of unissued Preservation GO bonds from the May 2004 authorization. GO bonds are backed by the full faith and credit of the City, and are repaid through the City's levying of property (ad valorem) taxes. However, the Preservation GO bonds are repaid through the two-tenths of one percent City sales tax approved by voters in September 1996 to be used specifically to finance land acquisitions for the McDowell Sonoran Preserve.

Municipal Property Corporation Bonds

The City of Scottsdale Municipal Property Corporation (MPC) is a nonprofit corporation created by the City in 1967 to finance the construction or acquisition of certain capital improvement projects. The MPC issues its own bonds, which are repaid through the City's excise tax collections and other unrestricted revenues. The use of property taxes to repay these bonds is specifically prohibited by law. Most of these bonds are recorded as governmental activities long-term debt. The 2001 MPC Scottswater bonds, the 2004 MPC bonds, the 2005E MPC bonds, a portion of the 2006 MPC Refunding bonds and the 2008A MPC bonds are recorded in and paid out of the revenues of the Water and Sewer Enterprise Fund.

The City has pledged to repay 604,550,322 in MPC bonds issued in 2001 through 2008, The bonds are payable through 2024, and 2030 through 2035. The coverage ratio (revenues to debt service) for 2008 is 13.89. The total principal and interest remaining to be paid on the bond is \$680,484,618. Principal and interest paid for the current year and total excise tax were \$19,548,831 and 271,560,000 respectively.

Scottsdale Preserve Authority Bonds

The Scottsdale Preserve Authority (SPA) is a nonprofit corporation created by the City in 1997 to finance land acquisitions for the McDowell Sonoran Preserve. The SPA issues its own bonds, which are repaid through the two tenths of one percent City sales tax approved by voters in September 1996 to be used specifically for this purpose. In May 2004, voters approved an additional 0.15% sales tax increase. SPA bonds are recorded as governmental activities long-term debt and are paid out of the SPA Debt Service Fund.

The City has pledged to repay \$117,420,000 in SPA bonds issued in 1998, 2001, and 2004. The bonds are payable through 2024, 2022, and 2016. The coverage ratio (revenues to debt service) for 2008 is 5.29. The total principal and interest remaining to be paid on the bonds is \$107,729,320. Principal and interest paid for the current year and total sales tax were \$6,781,871 and \$35,604,000 respectively.

Water and Sewer Revenue Bonds

Water and sewer revenue bonds are issued as authorized by the voters for the construction, acquisition, furnishing and equipping of water and sewer facilities and related systems. The water and sewer revenue bonds are collateralized by revenue in excess of operating and maintenance expenses of the City's water and sewer utility system, and are repaid via user charges or fees for service. Property taxes cannot be used to pay the debt service on these bonds.

The City has pledged to repay \$54,170,000 in water and sewer revenue bonds issued in 2004 and 2008. The bonds are payable through 2016 and 2023. The coverage ratio (revenues to debt service) for 2008 is 12.98. The total principal and interest remaining to be paid on the bonds is \$73,588,562. Principal and interest paid for the current year and total customer net revenues were \$6,222,371 and \$80,756,000 respectively.

Water and sewer revenue bond covenants require that the City accumulate sufficient reserves to cover the eventual replacement of the water and sewer system. The City has continued to meet this reserve requirement. At June 30, 2008, the funds reserved for this purpose were \$26,147,221.

Special Assessment Bonds

Special assessment bonds are issued by the City on behalf of improvement districts created by property owners for a specific purpose, such as to finance local street, water or sewer improvements, or to acquire an existing water or sewer operation. Property owners in the designated districts agree to be assessed for the principal and interest costs of repaying the bonds. As trustee for improvement districts, the City is responsible for collecting the assessments levied against the owners of property within the improvement districts and for disbursing these amounts to retire the bonds issued to finance the improvements. The receivables, revenues, and debt service expenses related to these bonds are recorded in the Special Assessments Debt Service Fund. At June 30, 2008, special assessments receivable, together with amounts paid in advance and interest to be received over the life of the assessment period, were adequate for the scheduled maturities of the bonds payable and the related interest.

These bonds are secured by a lien on the property and improvements of all parcels within each district. In the event of default by the property owner, the City may enforce auction sale to satisfy the debt service requirements of the improvement bonds. The City is contingently liable on special assessment bonds to the extent that proceeds from auction sales are insufficient to retire outstanding bonds.

The City Council's adopted policy is that special assessment improvement debt is permitted only when the ratio of the full cash value of the property (prior to improvements being installed) when compared to debt is a minimum of 3 to 1 prior to issuance of debt, and 5 to 1 or higher after construction of improvements. In addition, cumulative improvement district debt is not permitted to exceed 5 percent of the City's secondary assessed valuation.

At June 30, 2008, there were 2 separate series of special assessment improvement bonds outstanding, each series issued as serial bonds to be repaid over 10 years. Bonds issued September 1998 through December 2001 totaling \$8,350,000 mature January 2009 through January 2013. The coverage ratio (revenues to debt service) for 2008 is 0.86 due to prepayment of amounts that are currently in fund balance. The total principal and interest remaining to be paid on the bonds is \$4,258,841. Principal and Interest paid for the current year and total collections were \$1,043,000 and \$895,000 respectively.

Certificates of Participation

Certificates of Participation are issued to finance acquisition and improvements of real property that is leased to the City. The City's obligation to make lease payments are subject to, and dependent upon, annual appropriations made by the City Council. In the event any such appropriation is not made, the lease will terminate and the lessor will have legal right to take possession of the property. The City's obligation to make lease payments does not constitute a debt or liability of the City within the meaning of any constitutional or statutory limitation. Neither the full faith and credit nor the general taxing power of the City is pledged to make payments of principal or interest due with respect to the Certificates of Participation. Such payments will be made solely from amounts derived under the terms of the lease, including lease payments, and amounts from time to time on deposit under the terms of the declaration of trust.

Community Facilities Districts General Obligation Bonds

Community Facilities District General Obligation Bonds are issued by community facilities districts (CFDs), which are special purpose districts created specifically to acquire and improve public infrastructure in specified land areas. CFD bonds are repaid by ad valorem taxes levied directly by the districts and collected by the county. Property owners in the districts are assessed for district taxes and thus for all costs associated with the districts. The City has no liability for community facilities district bonds.

CFDs are created only by petition to the City Council by property owners within the district areas. As board of directors for the CFDs, the City Council has adopted a formal policy that CFD debt will be permitted only when the ratio of the full cash value of the unimproved district property to the proposed district debt, is a minimum of 3 to 1, and 5 to 1 or higher after construction of improvements. These ratios are verified by an appraisal paid for by the CFD and administered by the City. In addition, cumulative debt of all CFDs cannot exceed 5 percent of the City's secondary assessed valuation.

CFD Advance Refundings

There were no refundings during fiscal year 2007/08. In prior years, the McDowell Mountain Ranch CFD and the Scottsdale Mountain CFD refinanced other bond issues through the issuance of refunding bonds. The proceeds from the refunding bonds were deposited in irrevocable trusts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, provided amounts sufficient for future redemption or payment of principal and interest of the issues refunded. The assets, liabilities, and financial transactions of all of these trust accounts and the liability for refunded (defeased) bonds are not reflected in the financial statements of the City. There was no CFD refunded debt outstanding at June 30, 2008.

Bonds payable at June 30, 2008, are comprised of the following:

Classified in Governmental Activities on the Government-wide Financial Statements:

General Obligation Bonds	<u>Bonds Outstanding (in thousands of dollars)</u>
1993 Refunding Bonds due in annual installments of \$1,010,000 to \$8,150,000 through July 1, 2009; interest at 4.0 percent to 5.5 percent. \$28,399,993 of these bonds are recorded in and paid out of the Water and Sewer Fund. On June 15, 2004, \$2,505,000 due 2007 through 2009 were defeased. The original issue amount for the 1993 Refunding Bonds was \$45,015,000.	\$ 2,550
1997 Refunding Bonds (issued September 3, 1997) due in annual installments of \$50,000 to \$3,510,000 through July 1, 2014, interest at 4.45 percent to 5.5 percent. Original issue amount \$19,900,000.	12,685
1989 Capital Improvement Project Serial Bonds (issued April 6, 1998) due in annual installments of \$445,000 to \$1,340,000 through July 1, 2018, interest at 4.3 percent to 6.5 percent. On September 26, 2002, \$8,180,000 due 2009 through 2015 were refunded. Original issue amount \$20,500,000.	4,445
1999A Transportation, Storm Sewer, Flood Protection and Pima Road Improvements Serial Bonds (issued June 29, 1999) due in annual installments of \$675,000 to \$1,900,000 through July 1, 2019; interest at 4.6 percent to 6.5 percent. On September 26, 2002, \$15,525,000 due 2010 through 2019 were refunded. Original issue amount \$25,200,000.	1,200
1999 Preservation Bonds (issued November 16, 1999) due in annual installments of \$800,000 to \$4,225,000 through July 1, 2024; interest at 7.5 percent to 5.0 percent. On July 18, 2001, \$32,375,000 due 2012 through 2022 were refunded, on September 26, 2002, an additional \$4,125,000 due 2010 and 2011 were refunded, and on March 29, 2005 an additional \$8,225,000 due 2023 and 2024 were refunded. Original issue amount \$59,600,000.	1,925
2001 Preservation Bonds (issued March 29, 2001) due in annual installments of \$920,000 to \$2,455,000 through July 1, 2024; interest at 4.0 percent to 6.0 percent. On September 26, 2002, \$3,920,000 due 2010 through 2012 were refunded, and on March 29, 2005 an additional \$22,680,000 due 2013 through 2024 were refunded. Original issue amount \$35,000,000.	1,200
2001 Refunding Bonds (issued July 18, 2001) due in annual installments of \$70,000 to \$5,030,000 through July 1, 2022; interest at 3.875 percent to 5.375 percent. On April 15, 2004, \$5,490,000 due 2010 and 2014 through 2018 were defeased. Original issue amount \$51,155,000.	36,480
2002 Various Purpose Bonds (issued May 16, 2002) due in annual installments of \$1,740,000 to \$5,000,000 through July 1, 2024; interest at 4 percent to 5 percent. Statutory Debt Limitation

Under the provisions of the Arizona Constitution, outstanding general obligation bonded debt issued for water, sewer, light, parks, and open space purposes may not exceed 20 percent of a city's net secondary assessed valuation. Outstanding general obligation bonded debt for all other purposes may not exceed 6 percent of a city's net secondary assessed valuation. Accretion on capital appreciation bonds, which is included for GAAP purposes as outstanding debt, is excluded for this calculation. General obligation bonds of community facilities districts also are not subject to or included in this calculation. The following summarizes the City of Scottsdale, Arizona's legal general obligation bonded debt borrowing capacity at June 30, 2008 (in thousands of dollars):

General Obligation Bonds Issued to Provide Water, Sewer, Light,	General Obligation Bonds Issued for All Other Purposes
20% Constitutional Limit	6% Constitutional Limit
\$ 1,448,765	\$ 434,629
Less General Obligation 20% Bonds Outstanding	Less General Obligation 6% Bonds Outstanding
<u>(424,865)</u>	<u>(149,580)</u>
Available 20% Limitation Borrowing Capacity	Available 6% Limitation Borrowing Capacity
<u><u>\$ 1,023,900</u></u>	<u><u>\$ 285,049</u></u>

Arbitrage

Under U.S. Treasury Department regulations, all governmental tax-exempt debt issued after August 31, 1986, is subject to arbitrage rebate requirements. The requirements stipulate, in general, that the earnings from the investment of tax-exempt bond proceeds, which exceed related interest expenditures on the bonds, must be remitted to the Federal government on every fifth anniversary of each bond issue. The City used an independent consultant to evaluate the City's outstanding tax-exempt debt for arbitrage liability and determined that there is no arbitrage liability due as of June 30, 2008.

Advance Refundings and Defeasances

The City issued \$35,290,000 of Water and Sewer Revenue Refunding Bonds, Series 2008, (current and advance refunding) dated February 6, 2008, with an average interest rate of 5 percent, to refund \$38,575,000 of Series 1996, 1989D and 1989E with an average interest rate of 4.63%. The City will reduce its total debt service payments over the next 27 years by approximately \$3,439,216, and obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$2,617,734.

The proceeds from the issuance of the bonds were used to purchase U.S. government securities that were placed in an irrevocable trust with an escrow agent to provide debt service payments on the bonds being refunded. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the City's financial statements.

In prior years, the City refinanced other bond issues through the issuance of refunding bonds. The proceeds from the refunding bonds have been deposited in irrevocable trusts at commercial banks and invested in U.S. Government securities which, together with interest earned thereon, will provide amounts sufficient for future redemption or payment of principal and interest of the issues refunded.

The assets, liabilities, and financial transactions of all of these trust accounts and the liability for refunded (defeased) bonds are not reflected in the financial statements of the City.

The tables below reflect refunded debt outstanding at June 30, 2008, and net of any amounts to be paid or retired by the trustee on July 1, 2008 (in thousands of dollars).

Refunded in Prior Years (in thousands of dollars)	
1999A General Obligation Bonds	\$ 15,525

Internal Service Funds serve primarily the governmental funds, the long-term liabilities of which are included as part of the governmental activities. For the year ended June 30, 2008, \$423,566 of accrued compensated absences is included in the above amount. For the governmental activities, the General Fund, Special Revenue Funds and Capital Projects Funds generally liquidate accrued compensated absences. The compensated absences presented in this note are net of the current liability of \$125,000 in the governmental funds and \$0 in the Internal Service funds.

V. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to public, property, and aviation premises liability, self-insured benefits and workers compensation. Public liability includes public officials' errors and omissions, automobile and general liability. The City is self-insured for the first \$2,000,000 of public liability, the first \$100,000 of property coverage, the first \$150,000 of health benefits claims and the first \$750,000 of workers compensation. Coverage in excess of these respective amounts is provided through the purchase of commercial insurance. As for claim expenditures, settlements for each of the past five fiscal years have not exceeded the City's excess insurance coverage amounts for any claims.

The City reports its self-insurance activity in its Self-Insurance Internal Service Fund. Claims liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated.

The claims liabilities amount recorded in the accompanying financial statements is based on reported pending claims; and an actuarial analysis and projection of the accrued liability amounts necessary to fund the claims. At June 30, 2008, the general liability claims payable totaled \$8,737,308 and the self-insured benefits claims payable totaled \$1,781,308. The City began to administer all self-insured health and dental plans in January of 2004.

	Years Ended June 30

Current Year Claim Payments	<u>(19,693)</u>	<u>(19,066)</u>
Claims Payable, June 30	<u>\$ 10,519</u>	<u>\$ 14,347</u>

B. Contingent Liabilities

The City is a party to several lawsuits incidental to its normal operations. Management, with concurrence of the City Attorney, and outside legal counsel, is of the opinion that settlement of these lawsuits will not have a material effect on the financial position of the City. Therefore, no specific provision has been reflected in the accompanying basic financial statements for these matters.

C. Commitments and Subsequent Events

Only July 11th, 2006, the City agreed to the sale of Planet Ranch, including all related water rights, farm infrastructure and equipment to Phelps Dodge Corporation. Planet Ranch is land that was purchased by the City in 1984 to secure future water supplies. It is located along the Bill Williams River in western Arizona, east of Parker. It consists of 8,300 acres of land and has 14,400 acre-feet of surface water rights to the Bill Williams River.

When all conditions are satisfied and the sale of the property closes, the City is expected to receive a total value of \$24.65 million, consisting of \$12 million cash and water rights valued at \$12.65 million. The major conditions for closure are:

- Deposit of remaining cash balance into the City's Water and Sewer Fund.
- Arizona Department of Water Resources approval of sever and transfer and change of use of a portion of Planet Ranch water rights for habitat restoration.
- Arizona Department of Water Resources approval of sever and transfer and change of use of a Horseshoe Dam water credits to the City of Scottsdale, Arizona water service area.
- Completion of assignment agreement for Horseshoe Dam water credits between the Corporation, the City and Salt River Project.
- Creation of a conservation easement on Planet Ranch property.
- Completion of Lower Colorado River Multi-Species Conservation Program habitat Development Agreement insuring use of Planet Ranch property for habitat restoration purposes.

On November 19, 2002, the City Council approved a development agreement with John Lund relating to a new automotive complex at the southeast corner of Scottsdale Road and Loop 101 Freeway. The terms of this agreement require the City to reimburse Lund for up to \$5.5 million in public benefits relating to the project including the acquisition of public lands, reimbursement of the City's water and sewer development fees, and reimbursement of the City's stormwater retention payment in lieu. The actual amount will be dependent upon actual costs. However, the reimbursement amount may not exceed \$5.5 million even if actual costs are higher. The City has also agreed to pay interest costs on Lund's cost of borrowing on the unpaid balance beginning at 8.5% in the first year and dropping by .5% per year. The reimbursement of the costs listed above, will be accomplished by paying Lund quarterly payments equal to 67% of the City's General Fund sales tax receipts received from the new dealership in that quarter, for a maximum of 10 years. The first payment is not due until the calendar quarter after the calendar quarter in which the first certificate of occupancy is issued. Payments are expected to be during or after fiscal year 2008/09.

The City has a Service Agreement with the Scottsdale Cultural Council (Council) that provides that the Council will manage the arts and cultural affairs within the Scottsdale community for a ten-year period, automatically renewable for two five-year periods. In return, the City will pay service fees to the Council based on the Service Agreement between the City and the Council. Payments to Scottsdale Cultural Council amounted to \$3,184,955 for the year ended June 30, 2008. Contractual payments due in fiscal year 2008/09 are budgeted for \$5,485,277.

The City has a Service Agreement with the Scottsdale Convention and Visitors' Bureau (SCVB) that provides that SCVB will manage the tourism promotion within the Scottsdale community for a ten-year period. In return, the City will pay service fees to SCVB based on the Service Agreement with the City. Payments to SCVB amounted to \$7,368,767 for the year ended June 30, 2008. Contractual payments due in fiscal year 2008/09 are budgeted for \$7,123,766.

The City has entered into several agreements whereby it will reimburse developers for construction costs of certain public infrastructure improvements. The funding source for the reimbursements will come from Water and Sewer development fees paid over the life of the development. Only amounts paid subsequent to January 13, 1997 are eligible for reimbursement. The City does not become liable under the agreements until the City has accepted the cost, a development fee has been paid and a water meter has been set. The City has limited its liability to the lesser of the cost accepted by the City or the development fees paid. The City's maximum contingent liability at June 30, 2008, is \$14,073,976.

The City has entered into several agreements whereby it will reimburse developers a portion of the sales tax collected on their site for a time period up to a maximum dollar amount. The funding source for the reimbursements will come from sales tax collected on the site over the life of the agreement. The City does not become liable under the agreements until the developer has collected and remitted the tax to the City. The City's probable contingent liability at June 30, 2008, is \$59,119,299.

D. Joint Venture

The City participates with the cities of Phoenix, Glendale, Mesa, and Tempe in the multi-city Sub-Regional Operating Group (SROG). SROG was formed pursuant to the Joint Exercise of Powers Agreement (JEPA) in order to govern the construction, operation, and maintenance of jointly used sewage treatment and transportation facilities. The facilities include the 91st Avenue Wastewater Treatment Plant, the Salt River Outfall Sewer, the Southern Avenue Interceptor, and related transportation facilities. The City of Phoenix acts as lead agency and is responsible for the planning, budgeting, construction, operation, and maintenance of the facilities. In addition, the City of Phoenix provides all management, personnel, and financing arrangements and accepts federal grants on behalf of the participants. The JEPA requires each city to pay for its share of the actual cash costs of operating and maintaining the facilities based on relative sewage flows and strengths.

The City records its share of SROG's cash operating expenses, and its equity in the joint venture in the City's Water and Sewer Fund. For the year ended June 30, 2007, (the latest audited information available from SROG), the City's net investment in SROG was \$98,732,000. SROG's net cash operating expenses for the year ended June 30, 2007, were \$33,418,218, of which the City's share was \$4,158,439, or 12.4 percent. For the year ended June 30, 2008, the City paid \$16,826,173 for SROG capital contributions, and \$4,289,579 for SROG operating expenses, including adjustments to the operating and replacement reserves.

The Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2007 for the multi-city Sub-Regional Operating Group (the latest SROG CAFR available) may be obtained from the Arizona Municipal Water Users Association, 4041 N. Central Avenue, Suite 900, Phoenix, AZ 85012.

E. Related Organization

The Industrial Development Authority (Authority) is a nonprofit corporation established by the City in 1984 to promote industry and develop trade by inducing manufacturing, industrial and commercial enterprises to locate and remain in Scottsdale. The Board of Directors of the Authority is appointed by the City Council; however, the City's accountability for the authority does not extend beyond making the appointments.

F. Retirement and Pension Plans

All full-time employees of the City, the Mayor, and City Council are covered by one of three pension plans. All full-time City employees, except public safety personnel, participate in the Arizona State Retirement System, a multiple-employer cost sharing pension plan. All public safety personnel participate in the Public Safety Personnel Retirement System, which is an agent multiple-employer pension plan. The Mayor and Council participate in the Elected Officials' Retirement Plan, a multiple-employer cost sharing pension plan. All three pension plans are administered by the State of Arizona.

Arizona State Retirement System

Plan Description

All full-time City employees, except public safety personnel, participate in the Arizona State Retirement System (System), a multiple-employer cost sharing defined benefit pension plan. The System was established by the State of Arizona to provide pension benefits for employees of the state and employees of participating political subdivisions and school districts. The System is administered in accordance with Title 38, Chapter 5, of the Arizona Revised Statutes. The System provides for retirement, disability, health insurance premium benefits, and death and survivor benefits. The Arizona State Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to Arizona State Retirement System, P. O. Box 33910, Phoenix, AZ 85067-3910, or by calling 1-800-621-3778.

Funding Policy

The Arizona Revised Statutes (ARS) provide statutory authority for determining the employees' and employers' contribution amounts as a percentage of covered payroll. Employers are required to contribute at the same rate as employees. Although the statutes prescribe the basis of making the actuarial calculation, the Arizona legislature is able to legislate a contribution rate other than the actuarially determined rate. The actuarially determined contribution rate for the years ended June 30, 2008, 2007, and 2006, were 9.60% (9.10% retirement and .50% long-term disability) 9.10% and 7.40%, respectively, for both employers and employees. The City's contributions to the System for the years ending June 30, 2008, 2007, and 2006 were \$10,731,440, \$9,226,983, and \$6,876,822, respectively, equal to the required contributions for each year.

Public Safety Personnel Retirement System

Plan Description

All of the City's public safety personnel (police officers and firefighters) participate in the Public Safety Personnel Retirement System (PSPRS), an agent multiple-employer defined benefit pension plan. PSPRS was established by Title 38, Chapter 5, Article 4 of the Arizona Revised Statutes to provide pension benefits for public safety employees of certain state and local governments. The PSPRS is jointly administered by the fund manager and 171 local boards. PSPRS provides retirement benefits, as well as death and disability benefits. The Public Safety Personnel Retirement System of the State of Arizona issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to Public Safety Personnel Retirement System, 1020 East Missouri Avenue, Phoenix, AZ 85014 or by calling (602) 255-5575.

Funding Policy

The System for both police and fire is funded through a member contribution of 7.65% of gross payroll, an employer contribution set by an actuarial valuation expressed as a percent of gross payroll, and a distribution of the net earnings of the Fund. The City’s current contribution rate for police is 15.16% of annual covered payroll. Contribution rates for police were 12.50% and 11.56% in 2007 and 2006, respectively. The City’s current contribution rate for fire is 8.24% of annual covered payroll. The City’s contribution rate for fire was 11.03% in 2007 and 2006.

Annual Pension Cost

For 2008, the City’s annual pension costs of \$4,855,077 for police and \$1,497,247 for fire were equal to the City’s required and actual contributions. The required contribution was determined as part of the June 30, 2007 actuarial valuation using the projected unit credit cost method.

Three-Year Trend Information for PSPRS (Police)
(in thousands of dollars)

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2005	2,111	100%	-
2006	2,905	100%	-
2007	3,468	100%	-

Three -Year Trend Information for PSPRS (Fire)
(in thousands of dollars)

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
2005	\$ 53	100%	-
2006	1,601	100%	-
2007	1,870	100%	-

Actuarial Methods and Assumptions

The actuarial assumptions for both police and fire include (a) a rate of return on the investment of present and future assets of 8.50% per year compounded annually, (b) projected salary increases of 5.50% per year compounded annually, attributable to inflation and other across-the-board factors, and (c) additional projected salary increases ranging from 5.50% to 8.50% per year, attributable to seniority/merit. Included in (b) is an inflation component of 5.00%. The actuarial value of PSPRS assets was determined using techniques that smooth the market value of assets over a 4-year period. PSPRS’ unfunded accrued liability is being amortized as a level percent of projected payroll over a closed period of 29 years remaining as of June 30, 2007 (20 year open period for any excess of valuation assets over actuarial accrued liability).

Funded Status

The funded status of each plan (Police and Fire) as of June 30, 2007, the most recent actuarial valuation dates, is as follows:

**Public Safety Personnel Retirement System

Elected Officials' Retirement Plan

Plan Description

The City's Mayor and Council participate in the Elected Officials' Retirement Plan (EORP), a multiple-employer cost sharing defined benefit pension plan. The EORP was established and is administered by the State of Arizona to provide pension benefits for state and county elected officials, judges, and certain City-elected officials. The fund manager of the PSPRS is also the administrator for the EORP. EORP provides retirement benefits, as well as death and disability benefits. The Elected Officials' Retirement Plan issues a publicly available financial report that includes financial statements and required supplementary information for EORP. That report may be obtained by writing to Elected Officials' Retirement Plan, 1020 East Missouri Avenue, Phoenix, Arizona 85014 or by calling (602) 255-5575.

Funding Policy

Covered employees are required by state statute to contribute an amount equal to 7.00% of gross salary. Incorporated city or town employers are required to contribute an amount sufficient to meet both the normal cost of a level-cost method attributable to the EORP, plus the amount required to amortize the unfunded accrued liability for the employer. Such amount is to be determined each year by actuarial valuation and paid as a level percent of compensation. The contribution requirements for plan members are established and may be amended by the Fund Manager, a five-member board. The City's rates for fiscal years ended June 30, 2008, 2007, and 2006, were 20.21%, 18.55%, and 20.54%, respectively. The City's contributions to EORP for the years ending June 30, 2008, 2007, and 2006, were \$29,103, \$26,711, and \$29,720, respectively, equal to the required contributions for each year.

G. Other Post-Employment Benefits

In addition to the pension benefits described in F (above) the City provides an option of post-retirement health care benefits, in accordance with Chapter 14 of the City Code. At retirement, employees with medical leave accumulated prior to September 6, 1976 are eligible for payment of medical leave at one hundred percent cash value at current rate of pay. Employees hired before July 1, 1982 can elect to receive cash equal to fifty percent of the first five hundred twenty hours of unused medical leave plus twenty-five percent of all hours in excess of five hundred twenty. The conversion rate is the employee's average hourly base pay rate for the five years immediately preceding retirement. Any retiring employee with 300 or more hours of accumulated medical leave, who chooses to remain on the City medical plan, may elect to apply the value of the sick leave to the employee's portion of the health care premiums, up until age 65. The value of the accumulated medical leave is calculated at the employee's hourly rate of pay at the time of retirement.

Thirty-nine participants were added and twenty-seven were removed during fiscal year 2007/08 for a total number of participants of 139 at June 30, 2008. The actual liability for retirees, as of June 30, 2008, for medical conversion was \$3,124,698. The projected liability for active employees, as of June 30, 2008, was \$12,453,000. Of this liability, \$65,632 was considered current and reflected in the governmental fund statements. An additional \$11,199,162 was considered payable within one year or greater and was considered non-current in the governmental fund statements. The projected liability is based on a January 1, 2008, actuarial valuation, as adjusted, based on the actuarial projection that for every additional 100 participants, future normal costs increase by an additional 3% per annum. Significant actuarial assumptions

of the January 1, 2008 actuarial valuation include a) mortality rates based on the RP 2000 male and female rates, b) interest compounded 4.0 percent annually, c) salaries increase at a rate of 4.5% to 6.5% based on years of service, d) traditional unit credit method based on participant data as of January 1, 2008.

H. Post-employment Benefits Other Than Pensions

The cost of post-employment healthcare benefits, from an accrual accounting perspective, similar to the cost of pension benefits, should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. In early implementing the requirements of GASB Statement No. 45 during the fiscal year ended June 30, 2007, the City recognized the cost of post-employment healthcare in the year the employee services are received, reports the accumulated liability from prior years, and provides information useful in assessing potential demands on the City’s future cash flows. Recognition of the liability accumulated from prior years will be amortized over 30 years, the first period began with the fiscal year ending June 30, 2007.

Plan Description

The City provides post-employment medical care (OPEB) for retired employees through a single-employer defined benefit medical plan. The plan provides medical benefits for eligible retirees, their spouses and dependents through the City’s group health insurance plans, which covers both active and retired members. The benefits, benefit levels and contribution rates are determined annually by the City’s Employee Benefit Coordination Team and approved by the Scottsdale City Council. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate financial report.

Benefits Provided

The City provides post-employment medical care benefits to its retirees. To be eligible for benefits, an employee must qualify for retirement under one of the state retirement plans for public employees and be covered under the City’s medical plan during their active status. Retirees can enroll in a City plan up to 60 days after they retire, after that their eligibility for this benefit ceases.

All medical care benefits are provided through the City’s self-insured health plan. The benefit levels are the same as those afforded to active employees. Upon a retiree reaching 65 years of age, the retiree and related dependents are no longer eligible for City coverage.

As of June 30, 2008, Membership Consisted of:

Retirees and Beneficiaries Receiving Benefits	225
Terminated Employees Eligible for Benefits, But Not Yet Enrolled	-
Active Employees	2,555
Total	<u>2,780</u>
Participating Employers	<u>1</u>

Funding Policy

The plan premium rates are determined annually by the City's Employee Benefit Coordination Team, in collaboration with an outside employee benefits actuarial and consulting firm, and approved by the Scottsdale City Council. City code requires the City Council to authorize the contribution rates for employee health benefits. The retiree's contribution is 100% of the actuarially determined blended premium rate. The City makes no contribution to the retirees' premiums other than allowing them to participate through the City's pooled benefits. By providing retirees with access to the City's healthcare plans based on the same rates it charges to active employees, the City is in effect providing a subsidy to retirees. This implied subsidy exists because, on average, retiree health care costs are higher than active employee healthcare costs. By the City not contributing anything toward this plan in advance, the City employs a pay-as-you-go method through paying the higher rate for active employees each year. As of June 30, 2008, retirees contributed \$346,000 and the City contributed \$163,000 (implied subsidy).

Annual OPEB costs and Net OPEB Obligation

The City's annual other post-employment benefit (OPEB) cost for each plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities over a period not to exceed thirty years. The City's annual OPEB cost for the current year and the related information for each plan are as follows at June 30, 2008 (dollar amounts in thousands):

Annual Required Contribution	\$ 880
Interest on Net OPEB Obligation	24
Adjusted to Annual Required Contribution	<u>(23)</u>
Annual OPEB Cost	881
Contributions Made	<u>(163)</u>
Increase in Net OPEB Obligation	718
Net OPEB Obligation - Beginning of year	<u>607</u>
Net OPEB Obligation - End of year	<u><u>\$ 1,325</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2008 were as follows (dollar amounts in thousands):

Fiscal Year Ended	Annual OPEB Cost	Employer Contributions	Percentage of OPEB Cost Contributed	Net OPEB Obligation
2008	881	163	18.50%	1,325

Funded Status and Funding Progress

The funded status of the plan as of June 30, 2008 was as follows (dollar amounts in thousands):

Actuarial Accrued Liability	\$	6,822
Actuarial Value of Plan Assets		-
Unfunded actuarial accrued liability	\$	<u>6,822</u>
Funded ratio		0%
Covered payroll	\$	143,209
Unfunded actuarial accrued liability as a percentage of covered payroll		4.8%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The following schedule of funding progress, presented as required supplementary information, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

2008	163	880	18.5%

Actuarial Methods and Assumptions

Projections of benefits are based on the substantive plan (the plan understood by the employer and plan members) and include the type of benefits in force at the valuation date and the pattern of sharing benefits between the City and the plan members at that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant method and assumptions used for this fiscal year valuation were as follows:

Actuarial Valuation Date	June 30, 2008
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Closed
Remaining Amortization Period	28 years
Asset Valuation Method	N/A
Actuarial Assumptions:	
Investment Rate of Return	4%*
Projected Salary Increases	4.5-6.5% ⁺
Healthcare Inflation Rate	9% initial rate, 5% ultimate rate

* Investment rate of return based on City's own investments.

⁺ Projected salary increases based on City's past salary increases.

Medical Reimbursements

The federal government may provide the city subsidies per the Medicare Part D Prescription Drug Subsidy Program for providing healthcare for Medicare eligible employees. Any current and future year subsidies are recorded as revenue in the year received and is not recognized as a reduction to the actuarial accrued liability.

Nonmajor Governmental Funds

SPECIAL REVENUE FUNDS

Special Revenue Funds are established to finance particular activities and are created out of receipts of specific taxes or other earmarked revenue. Such funds are authorized by statutory or charter provisions to pay for certain activities with some form of continuing revenue.

Highway User Fuel Tax Fund

This fund receives and expends the City's allocation of the Arizona Highway User Revenue tax and other transportation related revenue. The amount available to each city is allocated on a population basis, which is determined by the latest federal census. These monies must be used for street construction, reconstruction, maintenance, or transit.

Community Development Block Grant Fund

This fund receives and expends the City's Community Development Block Grant revenues. The amount of the grant is awarded annually by the U.S. Department of Housing and Urban Development (HUD) upon application for funding by the City. Community Development Block Grant revenues may be used only for those projects approved in the grant budget and are subject to agency expenditure guidelines.

HOME Fund

This fund receives and expends monies from the Maricopa County Home Consortium. Expenditures are made to provide affordable housing, expand the capacity of nonprofit housing providers, strengthen the ability of local governments to provide housing, and leverage private-sector participation in housing.

Grants Fund

This fund receives and expends the City's grant revenues. The amount of grants received is generally based upon application to granting agencies by the City and upon availability of funding by the grantors. Grant revenues may be used only for the stated purpose in the approved grant agreement and are subject to grantor expenditure guidelines.

Section 8 Fund

This fund receives and expends the City's Section 8 Housing revenues. Assistance contracts are awarded by the U.S. Department of Housing and Urban Development (HUD) upon application by the City, and covers a five year period. Budgets are approved annually by HUD. Section 8 revenues may be used only for assistance approved by HUD and are subject to agency expenditure guidelines.

Preserve Privilege Tax Fund

This fund receives a 0.35 percent Preservation Privilege (Sales) Tax revenue approved by the voters in 1995 (.2%) and 2004 (.15%). Revenues are transferred to Capital Projects Funds for land purchases and improvements in the McDowell Sonoran Preserve or are used for related debt service payments.

Special Programs Fund

This fund receives monies from a variety of sources. The monies are required to be expended for specific purposes related to the source of the revenue.

DEBT SERVICE FUNDS

These funds record the accumulation of resources for, and the payment of, long-term debt principal and interest not serviced by the proprietary funds.

Municipal Property Corporation Fund

This fund accounts for the principal and interest requirements of the City's Municipal Property Corporation (MPC) bonds. Financing is provided primarily by transaction privilege tax.

Special Assessments Fund

This fund accounts for the principal and interest requirements of special assessment bonds. Financing is provided by special assessment levies against the benefited property holders.

Community Facilities Districts Funds:

Scottsdale Mountain Community Facilities District Fund

McDowell Mountain Community Facilities District Fund

DC Ranch Community Facilities District Fund

Via Linda Road Community Facilities District Fund

Waterfront Commercial Community Facilities District Fund

These funds account for the principal and interest of general obligation bonds issued by community facilities districts. Although these bonds are *not* obligations of the City, generally accepted accounting principles indicate that the bonds should be disclosed herein.

Scottsdale Preserve Authority Fund

This fund accounts for the principal and interest requirements of excise tax revenue bonds issued by the Scottsdale Preserve Authority. Financing is provided by a 0.2 percent Preservation Privilege (Sales) Tax.

CAPITAL PROJECTS FUNDS

Capital Projects Funds account for the resources used to acquire, construct and improve major capital assets, other than those financed by proprietary funds. Capital Projects Funds allow the City to compile project cost data and demonstrate that legal or contractual requirements regarding the use of the resources are fully satisfied.

General Obligation Bond Fund

Accounts for proceeds of the sale of 1989, 1992 and 2000 voter-approved general obligation bonds that are used for authorized capital improvements.

Municipal Property Corporation Bond Fund

Accounts for the proceeds of Municipal Property Corporation bonds issued for acquisition or construction of capital improvements.

Preserve Privilege Tax Fund

Accounts for the resources used to acquire and improve land within the McDowell Sonoran Preserve. Resources are provided by the proceeds from the sale of bonds and the .15% 2004-approved Preserve Privilege Tax. Capital Projects Funds allow the City to compile project cost data and demonstrate that legal or contractual requirements regarding the use of the resources are fully satisfied.

Transportation Privilege Tax Fund

Accounts for the authorized 0.2 percent Transportation Privilege (Sales) Tax dedicated to transportation capital improvements. Voters approved the tax on November 7, 1989.

Community Facilities Districts Funds:

McDowell Mountain Community Facilities District Fund

DC Ranch Community Facilities District Fund

Waterfront Commercial Community Facilities District Fund

Accounts for the proceeds issued by community facilities districts to acquire and improve public infrastructure in specified areas.

INTERNAL SERVICE FUNDS

Internal Services Funds are established to finance and account for services and/or commodities furnished by one department or unit to other departments or units within the City.

Fleet Management Fund

The Fleet Management Fund is responsible for the maintenance and operations of various automobiles and other equipment of the City. Revenue to this fund is derived from charges to user programs.

Self-Insurance Fund

The Self-Insurance Fund is responsible for the administration of the City's self-insurance program. Revenue to this fund is derived from charges to user programs and employee contributions for health and dental coverage. This fund provides coverage of unemployment, self-insured benefits, workmen's compensation, property, and liability claims.

FIDUCIARY FUNDS

Private Purpose Trust Funds and Agency Funds administer resources received and held by the City as the trustee or as the agent for others. Use of these funds facilitates the discharge responsibilities placed upon the governmental unit by virtue of law or other similar authority.

Handicap Scholarship Private Purpose Trust Fund

This fund accounts for monies received and expended for college scholarships for individuals with handicaps.

Family Self-Sufficiency Agency Fund

This fund accounts for monies in escrow for Section 8 Housing Program participants.

Retainage Escrow Agency Fund

This fund accounts for monies held in escrow for construction contract retainage payable.

OTHER SUPPLEMENTARY INFORMATION

Debt Requirements

The supplemental debt service schedule provides a comprehensive overview of the City's total debt. The Schedule of Changes in Long-Term Debt for the current fiscal year presents the City's debt by debt type without regard to fund classification.

Debt issued by community facilities districts is included for full disclosure although such debt is not legally an obligation of the City.

Contents	Page
Financial Trends	134
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	143
These schedules contain information to help the reader assess the City's most significant local revenue sources, property tax and sale and use taxes.	
Debt Capacity	151
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Economic and Demographic Information	157
These schedules offer economic and demographic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	159
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	
Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note: The following gives a general description of each tax. Complete details for each tax can be found in Appendix C of the Scottsdale Revised City Code.

Privilege (Sales) Tax applies to the sale, lease, license for use and/or rental transactions.

Use Tax applies to the storage or use of items within the City on which no privilege tax has been paid.

Transient Occupancy Tax applies to transactions involving transient lodging.

Jet Fuel Tax applies to transactions involving the sale of jet fuel.

Source: 2008 information - The Maricopa County Treasurer's Office.

Source: 1999 information - The City of Scottsdale's Financial Advisor, as obtained from the records of the Arizona Department of Revenue, Division of Utilities and Mines and the tax rolls of the Maricopa County Assessor's office.

The Salt River Project Agricultural Improvement and Power District's (SRP) assessed valuation is not reflected in the total assessed valuation of the City. SRP is subject to a "voluntary contribution" in lieu of ad valorem taxation. The 2007/08 secondary assessed valuation of the Salt River Project within the City is \$18,471,697 as provided by the Arizona Department of Revenue. The secondary in lieu contribution received by the City of Scottsdale for 2007/08 was \$146,940.

Source: Arizona Department of Revenue Abstract of the Assessment Roll.

Under Arizona law, there are two property valuation bases: PRIMARY (P) and SECONDARY (S). The primary (limited assessed valuation is used when levying for maintenance and operation of cities, school districts, community college districts, counties, and the state. The secondary (full cash) assessed valuation is used when levying for debt retirement, voter-approved budget overrides, and maintenance and operation of special service districts.

Source: Maricopa County Assessor's Office

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Scottsdale. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the government's boundaries and dividing it by the county's total taxable assessed value.

Source: City of Scottsdale Financial Services

Under Arizona law, cities can issue general obligation bonds for purposes of water, sewer, light, parks, and open space purposes, but outstanding bonds issued for such purposes may not exceed 20 percent of the City's net secondary assessed valuation. Outstanding general obligation bonded debt for all other purposes may not exceed 6 percent of the City's net secondary assessed valuation.

General obligation bonds of community facilities districts are not subject to or included in this computation since they are not bonds of the City of Scottsdale, Arizona.
