

Sherwin Williams Mid-Century Modern Palette Selection

Sherwin Williams offers several palettes to complement the mid-century modern home. These selections are included here with their corresponding identification numbers. They are organized by color and a key has been included to designate those palettes that are Neutral, Historic, or Timeless, as designated by Sherwin Williams. Finally, those that include two zeros (0) at the beginning of their identification numbers are interior colors (e.g. Orchid – SW 0071).

This information is based on research by Rachel Simmons and was presented at the Arizona Historic Preservation Conference 2016. The paint color information listed below is intended to be a guide and there are other paint manufacturers that have similar colors that may also complement the mid-century modern home.
