

EXCELLENCE IS ALL AROUND YOU.

You just need to know where to look.

Choose a Center of Excellence hospital and save an average of 22%

Going to the hospital can be stressful. Choosing one shouldn't be. That's why we've identified top-performing¹ hospitals to help you make your own decision. These Centers of Excellence rank above all other in-network hospitals when it comes to health outcomes and savings for you. Nothing stressful about that.

What exactly is a Center of Excellence?

It's a hospital that's earned a top ranking for cost and health outcomes for 31 common inpatient conditions and procedures, like heart conditions, hip replacements and surgeries. Plus, we evaluate outpatient infertility treatment centers. We make it easy for you to find Centers of Excellence by clearly labeling them on myCigna.com.

Based on industry standards, not just our standards

Each year, we review third-party data to compare hospitals' cost and health outcomes for each of the 31 conditions and procedures. We start by looking at the patient experience, including cost. Then, we use other outside data to measure how often patients had to be readmitted, as well as the number of complications, related deaths and other quality-based information. Finally, we review hospital costs and the average length of patient stays.

Based on all of this fact-finding, a hospital can get up to three stars for health outcomes and up to three stars for cost. If a hospital earns a total of five or six stars for any of the reviewed conditions and procedures, they're rated as a Center of Excellence.

Why choose a Center of Excellence?

Compared to other in-network hospitals, Center of Excellence hospitals have earned top-ranking for health outcomes and provide²:

- 22% lower overall procedure costs
- 19% lower cost for hip replacement
- 23% lower cost for knee replacement
- 25% lower cost for bariatric surgery
- 26% lower cost for cancer conditions*

*Cancer conditions are kidney (renal) cancer, uterine cancer, breast cancer and prostate cancer.

Where do I find these hospitals?

To find Center of Excellence hospitals, go to myCigna.com and select "Find a Doctor or Service." Once you're on our online directory, look for the special Center of Excellence symbol. 

GO YOU.[®]
